

Beyond Penn's Treaty

Notes of a Journey taken by Elisha Tyson and James Gillingham on a Visit to some Indians in the neighbourhood of Fort Wayne

ID_TEI: SW_JG_1808

TYPE_OF_MANUSCRIPT: diaries

CALL_NO: MSS 003/193

DATE: 1808

LOCATION: Swarthmore College

AUTHOR: James Gillingham (b. 1757)

SUMMARY: James Gillingham was the son of John and Sarah Taylor Gillingham of Buckingham Monthly Meeting in Bucks, County Pennsylvania. He transferred his membership to Indian Spring in 1782, and married Elizabeth Hayward there in 1786. The family later moved to Baltimore where James was an Elder and Overseer.

Junction of the Short Creek &ytf

Wheeler Road,

15th set out & Rode to Washington
~~#~~ 5 miles & Breakfasted at
Morris's Tavern. then rode about
20 miles to Henry Mills where
we propose resting some days
16th still here. Elisha this day concluded
that he would be willing to part with
his Horse his Back being too sore to think
of riding him home Henry Mills called
in William Hillis who had a Horse he
thought would suit him, & so they ex-
changed Horses & now it looks likely
that we may proceed on with more
satisfaction

17th we left Henry Mills early he ac-
companied us to a Blacksmiths shop
on the road where Elisha had his Horse
shod we then proceeded to our Friend
Jonas Catts -

ytf

If Stinchcomb who is
hired by government
assisted well Kirk to build
a House for the use of
the Indians what right
had William Wells to
that House & if Kirk
bought land & owned
ground what right had
wells to one half of that

If wells raises corn for
the Indians at Wabash
on the land claimed by us
or with the Indian
communities why does he
sell it & put the money
to his own use

Transcription

ytf

Now Brothers we are come
to see you after a long
Journey & are glad to see
that you have Houses to
live in & land cleared
to raise corn so that you
may soon raise good things
enough if you will

Brothers we are sorry to
hear that some of you
drink much whiskey which
will ^{make} you sick will
make you poor & will
destroy your lives

*Notes of a Journey taken by Eliza
Tyson & James Gillingham on a Visit
to some Indians in the neighbourhood
of Fort Wayne* —————

We set out from Baltimore the 4th of
the 4th mo 1808. Rode to poplar spring & Lodge
5th Rode this Day to Middletown & about
five O'clock we put up for the Night at
the sign of Genl. Washington kept by Gar-
per Herring - the entertainment good & the
Inn orderly - We were much delighted
with the Country between the Catockind
& South Mountains & thought the
appearance quite equal to that in the
neighbourhood of Fredericktown &
the Village we are now resting ⁱⁿ has
a very neat & agreeable appearance
& appears to be ⁱⁿ ~~in~~ ^{condition} thriving. Several new
Brickhouses having been lately built
& more are Building -

& more are Building.ytf

6th & 4th of the Week set out from Middletown
Intending to breakfast at Boonsborough but
taking the wrong road we breakfasted at
a house on the Sheppards town road after
breakfast we changed our route & made
for Williamsport which after losing our
way & going several miles out of our road
reached about 2 o'clock & dined afterwards
rode 8 miles to Daniel Herboins where
we are now laid by for the night - our re-
flections were excited on passing the
conococheague Valley a Valley perhaps in-
ferior to none in the Suavariance of the
Soil but the comparison in the tillage
with the Valley we passed yesterday is
as much in favour of the former - as there
is difference between that cultivated
by neat Dutch Farmers & that by
negro Drivers the tints of distress &
Slavery being generally observable
in ^{our} road this Day. our landlord has
a Spring issuing from under his house
which turns a mill about 50 Yards
below where it rises

7th & 8th of the Week. Rode 7 miles to
Hunters. Breakfasted, thence to Harrocks
10 miles, dined, & proceeded to 15 mile ~~at~~
distance 16 miles, ^{whole} distance this day 33 miles
our observations this ^{day} not generally of the
most agreeable kind the latter part of the
Day passed several very high hills which
made our journey tiresome

8th proceeded, breakfasted on the Hill, then
to old town, dined & proceeded to Cumberland
where we lodged at John Rines a good House
and attentive Landlord the Valley or Bottoms
along the River very rich & produce corn &
Grass in abundance thousands of Bushels
now lying in the Fields having we suppose
just been cut in the Fall & set up in rounds
Shocks in the same form that we set up corn
tops —

9th Staid at Cumberland until
about 3 o'clock rode about 10 miles
& lodged at Houbmans ~~near~~ in a
Valley of good Land about 30 miles
we were informed in length

Brothers of the Miami & Potowatamy Nations we have come at the request
of our Brothers of Baltimore^m to see you & take you by the hand & have
read their talk to you, and we are glad to see you here at this time

David Grave & Benjamin Iddings

our two Brothers, who are now present felt so much love for you that
they were willing to accompany us into your country to see how you
did & how you were learning to till the ground & raise grain & Cattle for food
for yourselves, your Wives & your Children.

Brothers we thank the great Spirit for bringing ^{us} safe to you, we have
been to Dennis's Station on the Wabash, & were glad to see that some of our red
Brethren are like to do well there, & hope they & ~~all~~ the rest of our red
Brothers will get their eyes open so that they may see & their hearts made
good so that may be willing to do the things that are best for them

Brothers we desired to visit several of your towns but there fell so
much rain ~~we were hindered~~ that the waters were made high & the roads
so bad we thought we could not well come

Brothers we were very sorry to hear that some of our red Brothers still
drink much Whiskey. we want to persuade you to look at it & see how
much harm it does you, you may be sure that the man that lets you
have it is not your Friend but your Enemy that will cheat you
that will destroy you - in order Brothers to convince you that we say
true we will read to you part of a talk of one of your chiefs, to the
Leakers in Baltimore a few years ago.

~~Brothers We think a mill to grind your grain & a saw mill to make plank for your
Houses would be of great use to you & if ^{you} are willing to give enough of your
to buy Necessaries
annuities for that purpose, when we return we will ~~be glad to~~ ~~be glad to~~
what you are willing to do
inform our Brothers in Baltimore, & ~~also~~ ~~you~~ ~~in~~ ~~Baltimore~~ ~~that~~ ~~we~~ ~~will~~
& inform you what they say next fall, when if they are willing we
think you may have the mills built next year~~

Transcription

ytf

Brothers we wish you to remember that you have requested us to show
you how to work. we have sent men for that purpose ^{merely} not to work
for you but to show you how to work for yourselves if you intend
still to endeavour to learn & wish them to continue to instruct you
we want you to tell us so. If you say you do not desire it
we will take our young ^{men} away ~~& you may help yourselves~~

& lodged.ytf

22 The morning very fine & some while
Frost we proceeded being in good spirits
concluded to reach the Muskingum
40 miles which he effected about Sun
setting & put up at Taylors Tavern

The lands since we crossed the Ohio
have been generally good mostly very
rich in the neighbourhood of Short
Creek & Concord & continued to ~~un~~
we got to to plainfield where they
become inferior in quality tho good
Farming Land farther on we found
the Bottoms on the several branches of
will) Creek to be very extensive & the
upland tho hilly pretty good for some
miles before we reached the Muskingum
the Land was level & of an inferior
quality tho which the roads were
excellent Laneville on one side &
Springfield on the other of the muskin
gum show what can be effected in
a few years by enterprizing people
being both considerable & cheap

that if the country is over settled
they must be ditched.

29th we staid until near noon when
we set out & rode about 12 miles, to
wolf's tavern where we were well enter-
tained, through the course of the Day
we passed the little Miami a small
stream at a mill it was enclosed in
a narrow stone gutter which conti-
nued narrow with a great fall the Chas-
sennawed in depth until we supposed
it was 50 feet deep & about 20 feet
wide at the top in about 6 miles
we passed the Yellow Springs it
was large & proceeded out of a lime-
stone Rock & tinged ~~the~~ everything
with a deep yellow with a strong
sulphureous taste & is much resorted
to in the summer season for health.
30th set out early & rode to Dayton
thru some excellent land

Transcription

But were informed that they propose
dividing the meeting & Building 2 new
houses this summer one on each side
of the River having often met with
Difficulty in crossing still water -

2nd Day morning Benjamin Iddings
proposed setting out with us & having
victuals provided we set out early
& Rode to Thatcher's 18 miles crossed
Loramies Creek & a large Branch of
the great Miami riding thro. it being
about the saddle skirts. after staying
sometime we set out in company with
Thatcher & rode to Flins swimming
our horses across the second crossing
of Loramies Creek where we put up
for the Night & slept on the Floor
The land this Day mostly good tho
much of it is too flat to settle on
before we reached Thatcher's we passed
several miles thro' the woods where the
trees were lined with Pigeons nests
some times 20 or thirty in one tree

The Principal Chief & some others &
had some conversation with them &
returned in the afternoon we went down
the River about half a mile below
Dennis's Station & visited the Bel River
Indians. The Indians at both these
Villages live in tolerable log houses
which were generally built by Weller
out of their annuities. The amt of
the whole Population of these Villages
with Dennis's Station being about 300

Tomorrow we have appointed to see the
Indians together.

18th we heard this morning that several
of the Indians of the Lower Village were
drinking which has a disagreeable feeling
to us but hope they will not interrupt us
in Council to day. about 12 O'clock we
met with the Indians of the upper & Lower
Villages & also those at Dennis's Station to
whom we read the address (that was to have
been taken out by John Shaw & Griffith & found
by us at Red Stone it having ^{been} too late in get-
ting out) William Weller being Interpreter

Some observations were also communicated
by Elisha Tyson & David Grave, to all which
they gave their assent as is customary.
after which the White^{loon} made a short speech
acknowledging the propriety of what had
been said & observed that as they expected to
attend the Council at Fort Wayne where
a more pointed reply would be necessary
he thought it superfluous to say much.
at that time the Indians generally made
a pretty good appearance & some had on
very costly dresses, we returned to our young
mens Habitation & Dined upon Beef killed
the Evening before by the Indians it was
said partly on our account they manifested
respect for us & pretty good decorum at the
time of our counselling together.
We observed few or any of the young men
at labour & it appears doubtful whether
the present generation of young men will
apply themselves to labour prejudice &
their habits of ease & Indulgence being
so deeply Rooted in their minds.

Shaw & Griffith were preparing Ground for
Planting Corn the weather had been so wet
for sometime back that the Ground could not
be plowed to advantage, the land cleared
at these Villages is about 100 acres they have
about 120 Horse kind & about 50 Horned
Cattle & a good many Hogs the want of
mast last Winter proved fatal to abundance
of Swine I do not find that Friends have
any Hogs at the Station the land here
as well for 200 miles down this River is
Excellent & would admit of settlements suf-
ficient for all the Indians on this side the
Mississippi & is ^{up the little River} Navigable for Boats about
20 miles above this which is connected by
a portage of about 8 miles with the St. Mary
a branch of the Miami of the Lake
the main stream navigable many miles higher.
We viewed the Mill Seat at Dennis
Station on the River which we pronounced
a good one also Dennis's Creek a large
Branch but pronounced in favour of
the River & all the Branch failing
in the summer

The Weather has been fine for 2 Days past but
this Evening has a threatening aspect so that it
looks quite likely that we must either be detained
here or ride in the Rain tomorrow as usual
the young men have been handing out the
Corn to such as were in want but some of the
Indians having expressed their dissatisfaction
we directed them to give all the Corn they had
to the Indians to be divided by them as they
saw meet & a thought suggested itself to us
that it would be as well for whoever should
be stationed here to spend the chief of their
time in assisting & instructing the Indians
Instead of Raising Corn to be given away

In the Evening the Chiefs of the Village
the White Loon, of the upper Village from
Massisiniway & Charley Chief of the Bel
River Indians at the lower Village & some
of their Principal Indians ^{having} attended
& we delivered them a pipe after taken
taken a fraternal smoke & had some

23. This being the day we had appointed
for to hold a Council with the Indians
& many of them ^{were} collected over the river
we were engaged in preparing such
communications to them as we thought
advisable but to our great mortification
we were informed that the son of the
Five medals had returned from Stanton
where he had been with several men
& horses to purchase whiskey with a
large quantity & that the Indians here
collected had got to drinking it &
were many of them drunk so that the
prospect looks gloomy & that all our
toil will be of no avail.

24 The contractor showed us this morn-
-ing that in the month of Apr. last
there was delivered by order of the
Indian agent 1117/2 Rations of Whisky
or about 35 Gallons The Contractor
informed us that he offered to furnish
William Kirk when in Friend's employ
~~in the month of April last~~ Flour at \$6 per Cwt

ytf 23. This being the day we had appointed
for to hold a Council with theytf Indians
& many of them were Collected over the river
we were engagedytf in preparing such
communications to them as we thought
advisible but toytf our great Mortification
we were informed that the son of the
Five medalsytf had returned from Stanton
where he had been with several men
&ytf Horses to purchase whiskey with a
Large quantity & that the Indiansytf here
collected had got to drinking it &
were many of them drunk soytf that the
prospect looks gloomy & that all our
toil will be of noytf availytf 24 The contractor showed us this morn-
-ing that in the month of Aprilytf last
there was delivered by order of the
Indian agent 1117 Rations ofytf Whiskey
or about 35 Gallons The Contractor
informed us that he offeredytf to furnish
William kirk when in Friends employ
[delete] Flour at \$6 perytf [Cut?]ytf

The Indians are still drunk & little
prospect of doing any business with
them about nine o'clock the Indians that
had come in came together except Wopa-
-kee. who was too drunk the ^{medals} five was so
much intoxicated with divers others,
that we concluded it would not do
to pretend to treat with them & but
just to come together & inform them
that we were sorry that they had been
drinking so much as ^{be} to ~~be~~ fit to talk
with at Present but would meet
them tomorrow morning when if they
were still drunk we would go away
without having any public talk with
them. The five medals made reply
that we might speak, as the Potowa-
-tomies were the only people that
were drunk & that they were sober
enough to listen to what we

We read the address of the Committee to
them, also the Turtle's & five medals speeches
upon the subject of Civilization, after which
was read an address of our own with
the Turtle's speech upon spirituous Liquor
they were mostly interpreted into the
Miami & Potawatomy Languages -
by William Wells for the Miami & John
Flinn for the Potawatomy after which
we went to dinner with Captain
Heald & left the Indians in Council
amongst themselves in order to pre-
pare an answer to our address -
about 2 o'clock they sent us word
that they were in readiness to commu-
-nicate to us their minds, we attended
of the five medals, after making
some observations replied to
Elisha Tyson's observation respecting
the proffered aid of Government
& said that there was but few of

& said thatytf there was but few ofytf

the Chiefs present that they were engaged
in Business of more importance at the
time William Kirk was here last year
that it was the same case with them
this spring - & that he did not think ^{us} ~~authorities~~
to Question him upon that subject

after he had seen the White Loon one
of the Chiefs residing at Dennis's Station
made some observations respecting our
young men residing amongst them
& said he thought that by working with
the Indians in their own fields they
would render them more essential
service & also animadverted upon
the Indian corn that was to be distri-
buted among the Indians this spring
at the station thinking it was a little
extraordinary that after being a great
deal of corn last fall that there
should be so little this spring when
it was offered for a division the
greater part was taken by Shaw some
lent to welly & some given to the Indians
so that there was only about 50 Bushels

26.th We had intended to set out this morning
but there appeared to be a good deal
of Writing to do relative to our Mission
& John Johnston also wished to send some
—thing of the ^{Writing} kind with us which was not
fully prepared — in the course of the
Day we had a good deal of Conversa-
tion with Welly we were very plain
with him, which he took in good
part & endeavoured to explain or ex-
—cuse, we plainly saw the Difficulty
of his Situation & were nearly ready
to conclude that he was determined
to act uprightly. we think if he
was Faithful agreeably to his ability
he would still be of use in his
Station — We also had a good deal
of conversation with the white
Loon respecting Whiskey. he seemed
very sensible of the bad consequences
attend^{ant} upon drinking & made
some very good observations upon

28th we set out again this morning
& rode as yesterday thro, the rain about
18 miles to Charley Murrays we have
been very wet these two days & fell a
good deal thoughtful about our Health
but we have a Floor to lie on with
a good fire at our feet, Murray has
an Indian Woman for a Wife we eat a
nice Butter & Corn Bread of her make
as need be wished for, this is the second
croppings of the Stallony where there has
been a Garrison the land is good & the
united states have a reserve of about
3 miles square at this Place our pro-
spect this morning ^{29th very day} is gloomy in the
extreme but Eliza & David seem
intent to go to Mapokuntah the town
where William Kirk lives contrary
to my desire which was to proceed
directly home

John Lin^{Interpretter} for the ^{States} United
Factory who accompanied us thus far
& Benjamin Iddings left us to go on to
Still Water, the river is very high & we
have a very small canoe to ride
in - after their departure we got our horses
in readiness & an Indian Squaw as pilot
to accompany us to Wapuccanatah the
town where William Kirk resides
but ^{on} examination we found it too
dangerous to venture so we concluded
to set out Homeward - we set out about
about nine o'clock in company
with Murray & his Indian wife
who accompanied us about 6 miles
to see us cross 2 creeks that ~~appeared~~
were expected to be too high to ride
we crossed the fork of the Hellang
swimming in our horses & rode to them
where we crossed Laramie Creek
swimming our horses as before
then to Thatcher 9 miles where
we lodged on the floor

Still Water. the riverytf is very high & we
have a very small Canoe to Ride
in. after theirytf departure we got our Horses
in readiness & an Indian Squaw asytf pilot
to accompany us to Wapucconetah the
town where William Kirkytf resides
but on examination we found it too
dangerous a venture so weytf concluded
to set out Homeward. we set out about
about nine OClock inytf Company
with Murray & his Indian Wife
who accompanied us about 6ytf miles
to see us across 2 Creeks that [delete: appeared]
were expected toytf be too high to ride
we crossed the fork of the St. Mary
Swimmingytf [delete: in] our Horses & rode to Flins
where we crossed Laramieytf Creek
Swimming our Horses as before
then to Thatchers 9 milesytf where
we lodged on the Floorytf

as we have done ever since we
left Still water.

29th we crossed Laramie Creek
again swimming as usual & rode
to Lower Pickaway where we fed our
Horses. then proceeded to Still Water
to Benjamin Iddings where we took
some refreshment then crossed Still
water to Saml. Jones swimming our
Horses, we were kindly entertained

staid there during the night & about 10 O'Clock
set out in company with our kind host
toward Dayton intending to stop at Benjⁿ
Owings Saml. Jones accompanied us about
4 miles & left us & we arrived at B. Owings
about 12 miles the roads mostly very good
the Land during this Route (being near
Still Water River) was Excellent & many
mill seats on pretty good streams proceeding
from springs generally falling over a
high bank of 30 or 40 Feet

There was one Mill Built & ~~one more~~ ^{one more} preparing
for another. many of the settlers ~~are~~ ^{are} prepa-
-ring to live handsomely. This perhaps is
as good a settlement as almost any we have
seen, there is 4 meetings about Still Water
& one ~~about~~ on White Water belonging to West
Branch Monthly Meeting Still Water is
navigable ~~about~~ many miles above the
settlement of Friends. our Horses are much
tired & we propose staying here we lodged

here & were kindly & well entertained
~~from the 1st~~ we set out about 8 O'clock & rode
to Stanton about 5 miles through very
rich land & a tolerable road we crossed
the River & fed our Horses at Reed's where
William Kirk lay sick, & had been here
2 or 3 weeks in that Condition he was so
well as to be able to Walk about & was in
Hopes that he would be able to go to his
Station in a few Days, we set out from
Stanton near Noon & rode through a
good Country to Mordecai Walkers about
a mile from Wainesville

his House is of magnitude for this
Country altho not finished he has four
Rooms below Stairs with an Entry but
has not a great deal of Land Cleared
his Daughter Belsey keep a small school
in one of the Rooms

4th of the month ^{7th of the Week} we went to monthly Meeting
at Centre at 2 1/2 miles from Jonathan Wrights
intending on our return in the evening to
have rode about 13 miles to Vanometres but
the London Epistles & Extracts arriving the
meeting held so late that we concluded to
stay at J. Wrights until morning. The
monthly Meeting was large consisting of about
140 or 150 Families & many Friends that
appear very well Henry Ellithous Charity Cook
& Susannah Hollingsworth appeared in
Testimony we thought very lively the business
there was a good many Minutes & business
came in from the Preparatives & the
whole was requests to be admitted into
membership & a few certificates not one
offender to deal with

The Preparatives are Centre & Todd's Fork.
in the evening I went out with Benjⁿ
Farguhar & Joel Wright (Son of Jonathan)
to view a Tract of Land that adjoins
Jonathan Wright's & concluded if it
was not too good it might do —

The Settlement of Friends in this lower
part of the Country consists of 4 Monthly

1 West Branch by name on Still water
consisting of 5 meetings & the prospect
of another shortly

2 Miami Monthly (at Wainsville) consists
of 5 meetings —

3. Centre — at Todd's Fork & Caesar Creek
alternately

4 Fairfield — at Lees Creek & Clear
Creek alternately 3 meetings for Worship

we intend setting out early tomorrow
morning & push forward with vigour

we went in the Evening to see Edward Tiffin
the Late Governor of the State of Ohio & had
some Conversation with him respecting the
selling of whiskey to the Indians in this State
he seemed well disposed & said he would use his
influence with the leading members of the
Legislature of this state in order to have a
Law passed to that effect.

7th Elisha & David went to see Worthington
who lives about 1½ miles out of Town they
were pretty well satisfied with their visit
& found very friendly & well disposed to
forward our views respecting prohibiting Whisky
being sold to the Indians after their return
we staid & dined & in the evening rode to
Websters where we lodged.

8 Set out early & Rode to Evans 9 miles
through a beautiful Country & ^{Breakfasted in a} very dirty
House thence 10 miles to Lathers where we
dined he has a large & delightful plantation
after dinner we passed through New Lancaster
about 3 miles & put up for the night.

12th set out the roads very slippery so that
we rode with Difficulty & Breakfasted ~~with~~
at ~~the~~ Bradshaw's - after Breakfast we rode
to Joseph Valaw's near Plainfield meeting
house arriving about one O'Clock we
put up for the Day & were very kindly
entertained.

13th Set out next morning & Rode
5 miles to St. Clairsville. mostly called
Newels town & staid whilst Elisha
had his horse shod - my Horses
Back was very sore so much so that
I thought it rather cruel to ride
& therefore I exchanged him with Josiah
Dillon (who is a Senator for the State
of Ohio) for a Bay Horse of his after
paying Smart Money - we then proceeded
to Norton Howards about 12 miles
where we found John Witchel &
his wife Mary

& therefore I exchanged him with Josiah
Dillon (who is aytf Senator for the State
of Ohio) for a Bay Horse of his after
payingytf Smart money we then proceeded
to Horton Howards about 12 Miles
where weytf found John Witchell &
his Wife Maryytf

& Staid there until about 3 O'clock
when we set out Intending for Beeson
Town but a guest coming ^{on}, we stop'd at
William Disons about 5 miles short of the
Town & Staid there during the night

18th we set out early & rode to Union Town
and arrived about the sixth hour the
Weather warm & a probability of more rain
to Day. we ~~put up at~~ ^{Breakfasted} Collins's Tavern the
Land thro' the rout Yesterday & this morning
Excellent & pretty well improved generally
we passed over the Laurel Hill & Dined
at Inks's, then proceeded & Crossed the
Youghigana over the Bridge about
4 miles to Peter Lenhards, (Brother
to Henry in Baltimore) & Lodged.

19 - Set out early thro Bad road &
Rain to Browns 5 miles where we
Breakfasted the land for 20 miles
Back pretty good & thickly settled

to Henry in Baltimore) & Lodged ytf 19 -- Set out early thro Bad roads &
Rain to Browns 5 miles where we ytf
Breakfasted the land for 20 Miles
Back pretty good & thickly ytf settled ytf

We rode to Tomlinsons about 10 miles &
Dined then proceeded 10 miles more
to Myselfmans & put up for the night
Elisha appeared very much outdone tho
the distance was small but the weather is
warm & the Hills very fatiguing the Improve-
ments at this Tavern are very good &
every thing has the air of neatness & Indu-
stry

20 Set out & Rode to Givers where we Break-
fasted then Rode through Cumberland
about 12 miles & Dined then proceeded
through Old Town to Bells Mills where
we ^{lodged} ~~lodged~~.

21 Set out early about 8 miles to
a Tavern on the Hills ~~& Dined~~ Breakfasted
thence after making a Halt at 15 mile creek
we proceed but rain coming on we stop'd
about 5 miles after the rain ceased we pro-
ceeded to Hancock 10 miles where we
Lodged at Beans

ceeded to Hancock Willits here we
Lodged at Bean'sytf

23. Set out early & Rode to Hunters
to Breakfast being 10 Miles then to Williams-
port 14 Miles & Dined then proceeded
to Beonsborough & Lodged at Combs Inn
I had pretty hard work to drag Elisha along
this Evening as far as my desire to get
home prompted me.

24 we rose Early & proceeded to Middle-
town 8 Miles where we Breakfasted
the weather very pleasant which has
been so hot & Gusty for about 10
Days Back that Elisha is almost worn
out but it is nothing but exercise to
me & I feel as pleasant & easy as if I had
been sitting at home
