poorly since his arrival in town. Neither he nor John Parrish was at meeting on seventh-day. Jacob Lindley, William Savery and myself were there, and glad to see each other again in that place; and many friends expressed their gladness at our safe return. 24th. The weather dry and warm, the roads very dusty. This morning felt better. Leaving my horse here, I rode into town with my friend John Johnson, in a chair -- attended two sittings of our Yearly Meeting, which was much smaller than usual. Our friend Nicholas Wain, was again chosen clerk for the present year; and the business went on in much brotherly love and concord — a good degree of solemnity and weight attending. I lodged at Thomas Hough's. 25th. The weather much the same. I continue tolerable well in health; but weak and some cough. Attended the meeting as yesterday. Dined at N. Wain's, and lodged at John James's. 26th, and fifth of the week. The meeting assembled again at nine o'clock, and the business concluded before twelve, in solemn quiet, and, I believe, to the satisfaction of all present. After which, I dined with my friend David Bacon, and returned to Germantown with my kind friend, John Johnson, who had also attended all the sittings of this Yearly Meeting. The sickness in town continues here tofore. Divers friends in the city are paying constant attention to the sick — providing necessaries, nurses, coffins, and carriers of the dead. At which I felt glad, and hope they will be rewarded for their labours in so great and charitable a work.
Of a tour to Detroit, in order to attend the Treaty, with preliminary remarks and a brief history of the circumstances which led to this measure. The following journal, while corroborating Jacob Lindley's account, presents a view of divers interesting incidents and occurrences, not noted in that narrative. Joseph Moore was a valuable friend and minister belonging to Kingwood monthly meeting, New Jersey. The place of his residence was near Flemington. On the 17th of 4th mo. 1793, I set out for Philadelphia, and attended the meeting for sufferings, where were divers Friends who had given up to attend the Indian treaty proposed to be held at Sandusky, on the waters of Lake Erie — having previously obtained certificates from our several monthly meetings for that purpose. They commissioners appointed by government are, General Lincoln, colonel Pickering, and Beverly Randolph. Lincoln goes by water to Albany, &c.; William Savery, Jacob Lindley, and William Hartshorne, go with him: and John Parrish, John Elliott, and myself, with Timothy Pickering and Beverly Randolph, go through the country by land. I have some days past, been very poorly with the ague; but am now bravely.

30th. In the afternoon set out in company with Beverly Randolph, John Parrish, John Elliott, and Henry Cornplanter, or Obeal — got that evening to Norristown, where colonel Pickering met us. Next day we proceeded to Reading — thence to Harrisburgh and over the Broad Mountain, Mackinoy, and Tuscarora, to Sunbury — thence crossed the Susquehanna at Northumberland, a town standing in the point where they east and west branches come together. Here, leaving the commissioners behind, we, in company with Josiah Haines, proceeded to William Ellis's, and attended Muncy meeting of Friends. After which, went to Samuel Wallace's, where we met the commissioners, and were liberally and friendly entertained.

5th mo. 6th. The forepart of this day, we passed a rapid stream, called the Loyalsock — and in the afternoon we crossed another large stream, called Lycoming, seven times — lodged at James Kyle's. Next day rode forty-three miles without any entertainment on the way, except what we had with us. — Where we put up, there was no hay to be had for our horses, so we fed them with oats, and tied them up for the night— went to bed, or rather lay on the floor with our own blankets, in a very small house; but rested well. In the morning, the weather was fine and pleasant — rode to major Samuel Lindley's, crossed the Tioga twice, and the Cownisky; then to the Painted Post, crossing Cohocton at David Fuller's. On our way here, we swam our horses over the Tioga, and went ourselves in a canoe. The country from Northumberland to this place, abounds with large streams of water, and abundance of flat...
meeting, which was a solid, satisfactory opportunity, I believe, to them and us. Here we lodged. we went on towards our boat — we dined at Francis Cornwell's; the weather being wet and the wind ahead, William Hartshorne and I lodged here — the rest of our company went to Frederick Arnold's. Lindley went on foot up the river and crossed over to the town. The others lodged here — being very kindly entertained. We have frequently been visited by numbers of the Indian chiefs that were on their way to Sandusky, who mostly called us Shemucteman, or long knives, the term they use to describe the Americans of the United States; but when informed what we were, they signified they had heard of our being come, and were glad. This day, we were visited by several that had just come to town. We observed the generality of all the tribes had a remarkable thirst for rum; and when intoxicated, were very troublesome. We held a meeting in a large sail loft in the shipyard; had a considerable gathering of the town's people, and a few soldiers, who behaved quietly. The meeting held about two hours and a half, and I believe, ended well. In the afternoon had some more Indians to visit us, of the Chipaway nation; one of whom, called a chief, was pretty clean dressed, which is not general among that nation.
to make peace with them on principles of justice, we were made willing to leave our homes and take this long journey to endeavour promote it, and to be present at the concluding of so good a work. Heyt said, he knew long ago, we did not fight, but were for peace, and that, as we had come a long journey, preserved in health, it was evident the Great Spirit was pleased with our coming, and he hoped some good would be done, and that the Great Spirit would bring us home in health and safety. We had a visit also this morning from Abram, an Indian chief, Katharine his wife, and their daughters, richly clad, with plates of silver, &c. The introduction of distilled spirits among the people appears to have been their ruin. The frauds, in consequence of it, imposed upon them, taking in the ravages and depredations of war made amongst themselves, with multiplied murders and thefts, seems to have prevented their being wealthy people. The contrary with many is sorrowfully their situation, I fear to our condemnation; yet the history of Indian barbarity, and breach of faith to white people, and to one another, which we have heard related since we came here, would be shocking to recite, and is almost at times ready to stagger the faith of their best friends. One of the Moravian missionaries signified his sense, that if peace should be concluded, it would not last long, until they were further chastised. John Parrish asked, by what means? Did he mean the sword? He was answered, yes. This sentiment, from one of those who make profession of the peaceable principles of the gospel, was really discouraging.
old corn hills. On each side of these creeks and flats, are ridges of mountains. We have now travelled according to the several distances from place to place, two hundred, and forty-seven miles. Rode about thirty miles, and a little before night, got to an old Indian cabin, with fire in the middle, where we lodged. We let our horses browse awhile in the woods, then fed them with oats we had with us, and tied them up for the night. —
This cabin stands on the bank of Cohocton. The roads here are new, and of course rough, which is trying to the poor horses that are rid hard all day, and at night tied to a tree. Next day, rode thirty-six miles to Williamsburgh. Some parts of the road very rough. We passed over some of the steepest hills I ever saw travelled. But the country is new — and I have no doubt in a few years, the roads will be much improved, as there is abundance of excellent land that is settling fast in some places. Stayed this night at Captain Charles Williamson's, where we were kindly entertained. This morning the commissioners despatched a messenger to Canandaigua for an interpreter; so we rested here and were finely refreshed. Set out again next day, and rode to Gilbert Berry's, on the bank of Genesee river. Here we found about fifty Indians collected, amongst whom were some of their chiefs; Farmer's Brother, Red Jacket, Little Billy, and others, to all of whom dinner was given by the commissioners. They expressed their gladness in seeing us, and we also in seeing them. In the evening we had some weighty conversation together, wherein the commissioners imparted little of their business concerning the treaty;
which appeared to give general satisfaction. After which, the Indians gave our friend John Parrish a new name, which they in their language call Suttekutte, and signifies plain or level. This name was given by Farmer's Brother, at which there was a small shout, in their way, and they would have given us a song on the occasion; but understanding we were a plain people, not accustomed to singing, it was omitted, and nothing further followed than little pleasantry. Near ten o'clock we all retired and rested bravely.

In the morning the Indians showed no inclination to depart while they commissioners were here. Red Jacket, at the close of one of his speeches last evening, signified, that when he was in Philadelphia, the white people had proposed a method for them to turn buffaloes into cows, deer into sheep, and bears into hogs; he thought it now a fit time for the commissioners to show them a piece of their skill; as they were now on their way to Canandaigua for some clothing, &c, and that a good buffalo would be very agreeable for provision on the way. They commissioners used some endeavours to obtain a fat cow; but as there was none to be had here, they gave them a quantity of salt beef, pork, and corn, at which they appeared satisfied.

14th. We prepared to move forward; divers other people fell in company with us from Schenectady and other places, who were going into Upper Canada. We swam our horses over the Genesee river with some difficulty, and we, with our baggage, crossed in a canoe. In the evening we put up in the woods by the side of Tonnewanta creek, where we sheltered for the night with a good fire, and tied up
our horses as before. The following day we traveled hard, being very desirous to reach some house to lodge in. According to their account given us, we rode about fifty miles, and truly we thought them long enough. Arrived at Buffalo Creek about sun set, and put up at landlord Winney's; most of us lodged on the floor and slept well; also, had plenty of grass for the horses. The country we have passed through the last two days, is Indian lands, and one continued wilderness. Much of the land appears very good, with a variety of timber, such as oak, hickory, sugar maple, elm, ash, beech, linn, pine, cherry, butternut, &c. 16th. Rode about three miles to the ferry, nearly opposite Fort Erie, most of the way along the beach of Lake Erie. Here we crossed over the outlet of the lake, a large and strong current, landed in the British dominions, and rode down the banks of the river to Charles Willson's near the great falls. The whole distance this place is four hundred and twenty-seven miles. In the evening, walked to the brow of the bank to view the mighty cataract. Next morning went again, descended a very steep hill and walked to the rock over which the water falls, which appears tremendous indeed. There are rapids above the cataract that fall, it is said, fifty feet (and it looks likely to be so) within the distance of little more than half a mile. After satisfying our curiosity here, the commissioners went on to governor Simcoe's, at Navy Hall, sixteen miles. This is nearly opposite the garrison, which stands on a point of land the United States. John Parrish, John Elliott, and myself, went about two miles to our
friend William Lundy's, where we were kindly entertained, and spent most of the next day. Being first of the week, and having appointed a meeting to be held here at the eleventh hour; about the time there attended a pretty large collection of people, more than the house could contain. We thought it a favoured opportunity. After dinner we had a solid opportunity with the family and divers friends who had stayed with us. Then went about six miles to our friend John Hill's, who, with his wife, had been at the meeting. Here we were kindly entertained and lodged. In the morning, had a solid opportunity with the family, and set out for Navy Hall, a messenger having been sent to invite us to dine with the governor. He appears to be a plain man, and remarkably easy of access. At table we had the company of the commissioners, colonel Butler, majors Little, Hales, &c. The governor, when we were walking in his garden, said our coming forward at this time, did our society great honour. Toward evening we rode up the lake about two miles to landlord Peacock's, and lodged. We went up the lake twelve miles to Benjamin Paulin's and his brother Jesse's — our friend, John Parrish, having a letter from their connexions in Philadelphia. Here we were kindly entertained. In the woods we came through, we observed the greatest quantity of pigeons, I think I ever saw; they were flying up the lake, being chiefly young ones, and very fat. The people take abundance of them with clubs, poles, &c. We went three miles to our friend John...
Taylor's, though hardly able to travel. Hereytf we were kindly treated and lodged. I believe many were made glad inytf seeing their friends come amongst them, for whom in their wildernessytf situation, we often felt near sympathy. ytf ytf ytf

23d. ytf I felt much better in health, and understanding divers Friends live at aytf place called the Short Hills, about twelveytf miles off, we concluded to go there. On the way we dined at Thomas Rice's, and thence proceeded toytf Joshua Gillam's. We passed throughytf some land where we saw the effects of a hurricane that was on the 1st ofytf the 7th month last, and truly I may say, I never saw so greatytf destruction of timber. For about two miles in width, and said to beytf many miles in length, there was scarce a single tree left that was not tornytf up by the roots, or broken off. This tract, as far as we have passedytf over, appears excellent land, with a variety of good tim-ber — whiteytf and black oak, hickory, chestnut, poplar, white pine, walnut, cherry,ytf &c. We, finding a few Friends settled in this neighborhood, concluytf to stay amongst them over first-day, and have a meet-ytf ing with them. Inytf the interval, we visited at James ytf Crawford's, Enoch Scrigley's,ytf and John Dorling's, where the meeting isytf proposed to be held. ytf ytf ytf that behaved orderly, among whomytf we had a satisfactory opportunity. In the afternoon, set out on ouytf way to Navy Hall , and lodged at Jeremiah Moore's. Having heard of the arrivalytf of the other Friends that came by the way of Albany, we rose early next morning, and went to our friendytf Benja-min Hill's, where we tookytf breakfast — then rode to the landing, and thence to ytf Navy Hall. Spent a little 26th. ytf We had a considerable gathering of people...
time at theyt governor's, and went back to the landing, where we met with Jacob Lindley, William Savery, and William Hartshorne, who had come on by water. Our stores werey landed here, and we all dined at captainy's, at the mess house. In the afternoon we set up ouryf tents on the hill, and lodged all together. This seemed very pleasant, yf being all in health, and they having had a favourable passage from Newy York to this place, and very agreeable company with general Lincoln, in their covered bateau, two of which they propose taking up to Lakey Erie. yf yf yf

28th. yf Having had a good night's rest in our tents, were in the morning allyf bravely. When we shall move forward from this place appears at presentyf uncertain, as the commissioners sent off an express yester-yesterday toyf Philadelphia on some importantyf occasion, and expect to wait his return. Young Cornplanter went some days ago to his father's, about oneyf hundred and fifty miles from this place. The Indians, we understand, are gathering from many parts to the place appointed. Some of the Mohawks are now here. We shortly expect a numberyf of the Five Nations. Jacob Lindley being desirous to see Jeremiah Moore, we two rode there, spent theyt afternoon, and lodged. The weather cool and cloudy, with easterly winds. The next day was rainy. We are now within about three miles of theyt great cataract — the noise of which is much like the roaring of the seaf in time of storm. The people gave us a particular account of theiryf distressed situation, about four years ago, for want of bread, and theiryf loss of cattle and horses; which was truly alarming; but through the yf goodness of kind Providence, they have now plenty
of breadyt and other necessaries; and plenty of good sugar which they make from the maple tree. ytf ytf ytf ytf ytf landing, and we, with Jeremiah Moore and Benjamin Hill, went to the Falls, where Jacobytf had not been, and viewed them in a different direction from what weytf had done before. In this as well as many other things, the mighty works of Providence are eminently displayed, being far beyond the power of human art to form. Some of our company descended the mighty hill, bytf the clefts of rocks and the help of Indian ladders, to the water below, ytf supposed one hundred and ten feet. Here they saw divers curiosities, ytf and brought up some memorials of stone, bones, &c. We then returned to our camp, and I lodged at Benjaminytf Canby's. ytf ytf ytf 31st. ytf We had at our little camp, the company of ytf captain Hendricks and several other Indians, ytf that fed on our provisions — and a white man, lately from Pittsburg, informed that the Indians from the southward were coming on. ytf ytf ytf 6th. mo. 1st.ytf ytf The weather wet and little business to be done — though the article of provision meets with a large consumption — we being all in pretty good ytf health, and for the most part a number of Indians and others at our camp. ytf The commissioners are most of the time at Navytf Hall with governor Simcoe. ytf We expect to move forward in a day or two, towards Fort Erie, to take passage in a vessel for Detroit — the commissioners notytf likely to go from this under a week or ten days. We endeavour to fill upytf our time in seeing our friends. This afternoon Johnytf Parrish and John Elliott, ytf crossed the river and went to
an Indian settlement of about eighty families, who received them kindly. 2d, and first of the week, we held a meeting about four miles from the landing, in a large barn, of which previous notice had been given. The collection was large, and proved a solid opportunity. I hope it tended to advancement of our religious testimony. Divers Friends came many miles to attend it. After which, William Savery and William Harts-horne returned to our camp, in order to send forward our baggage to-morrow the upper landing above the Falls. John Parrish, Jacob Lindley, John Elliott, and myself, went to Jeremiah Moore's and dined — thence to William Lundy's and lodged. Esquire Burch was at meeting, and kept company with us thus far. 3d. Went on to Esquire Burch's, where we dined. Bought three barrels of flour and sent forward to Chipaway, to be carried on with the rest of our baggage, to Fort Erie. John Parrish, John Elliott, and myself, rode up the river about seven miles and lodged at our friend Richardsun's. Next morning went to Benjamin Willson's whose wife is a near relation of mine. Benjamin went with us six miles to the Fort. Here are the king's stores, and a harbour for shipping — several topsail vessels were then lying here. We went on board the Dunmore, captain Ford, bound to Detroit. The cabin passengers besides ourselves were Robert Inne, Newman and servant, Richard Hillery and servant, Dr. William M'Casky, John Heckevelder and William Willson. These, with the sailors and marines (being a king's ship) and about sixty Indians of four different tribes bound to the treaty, made our whole
crew about ninety. We left our horses in the care of Benjamin Willson — next day set sail and steered up the lake. We had fine pleasant weather until the 8th, when being near the islands towards the head of the lake, and dark night coming on us, we stood off and on till morning — had several squalls of rain, and short blasts of high wind, with thunder and lightning — which was somewhat alarming, as our ship had on board a large quantity of powder. But through the goodness of kind Providence we were preserved from damage. 9th, and first of the week; — fine pleasant morning with light airs of wind. The islands now appeared in sight. This day we had a small meeting in the cabin with our fellow passengers and two Indian chiefs. In the evening entered the mouth of Detroit river, and anchored till morning; when we ran up the beautiful river a northerly course, with a fair wind to Detroit. This is a small garrison town, with a variety of inhabitants. Here is much of the sound of drums and trumpets, but not much religion. The people here, as well as those on board our ship, were very respectful to us — and there was great harmony amongst ourselves. Thanks be to kind Providence for all his unmerited favours. Here we landed our small baggage, and took lodgings at Matthew Dolson's for the present. Found our accommodations comfortable and easy. We visited the commandant, colonel England, and showed him our passport from governor Simcoe, at Niagara, and are now waiting the commissioners coming forward, which we hope may be soon. From the present complexion of things, it looks likely to be some time before the treaty com-
mences; so that we find patience very necessary to be exerted. We hear many sentiments expressed, some favourable and some otherwise. Hope our minds may not be diverted by either from that humble dependence on the omnipotent Arm of power, under whose banner, I trust, we have enlisted in the righteous cause of peace-makers.

12th. Took a walk down the bank of the river, about three miles to a fine spring, of which there are few hereabouts. The inhabitants mostly use the river water, which is said to be very wholesome. The banks of this river for many miles above and below the town, are very thickly settled, mostly with French, who have fine orchards and meadows, and good wheat growing. Their grain is mostly manufactured by wind-mills, of which there are many in sight. The inhabitants of the town are as great a mixture, I think, as I ever knew in any one place. English, Scotch, Irish, Dutch, French, Americans from different states, with black and yellow, and seldom clear of Indians of different tribes in the day time. These are turned out by nine o'clock at night, and the gates are shut — sentries placed constantly in various parts round the town, which is enclosed with high pickets. There is no place of worship except one Roman Catholic chapel. There are large ships employed on these waters, some of which are from one hundred to one hundred and fifty tons burden; they sail up to Michillimackinac, several hundred miles from this place, and return with abundance of peltry — the staple commodity of this country.

13th. John Parrish, John Elliott, and myself, dined with the commandant, colonel Richard England,
and aytf number of other officers, and were friendly and liberally entertained. 14th. ytf Took passage in a small boat, bound up the river Latrench, on the east side of Lake St. Clair, with a fair wind — passed through the lake, more than twenty miles over, and went up the river about fifteen miles, to Isaac Dolson's, where we lodged. — Next day, with someytf Indians in a canoe, proceeded up the river about twenty miles, toytf Edward Watson's, son of Thomas, of New York, an intimate acquaintance. The respect I felt for him and his connections induced me to take this tour to see him, and know how he fared here. He and his wife received me kindly. They are connected with the Moravian brethren, and were very civil to me. John Heckewelder, Indian interpreter and Moravian minister, was passenger with me as far as Dolson's, where he took horse and went up the river to visit his brethren at a settlement of that people. This appears to be a beautiful new country, just settling; fine wheat, corn, peas, &c. now growing, and grass in abundance; — the timber, white and black oak, cherry, hickory, black and white walnut, ash, linn, poplar, &c. I am informed it continues in that way for one hundred and fifty miles up this river — the general course of which runs about east from its mouth, and the farther up, it is said, the better the land. Theyf inhabitants here appear to want as much cultivation as the lands they live on. May the Lord's power so reach their hearts, as to bring them into subjection to his Divine will. 16th, ytf and first of the week, after breakfast took leave of this family in a solidymtf manner, and returned to Dolson's: on theytf way, called at several houses.

ed to visit each other on first-days, — among whom
I had several opportunities for religious conver-
sation, and informing them of our principles. board about twenty-five bushels of wheat, we got
under way, and had a pleasant passage to the town,
where we arrived about ten o'clock in the evening.
The boat being ready for sailing, having on
the pickets. Went early into the town — found all my
dear friends well; they gave me any account of two
public meetings held by them; one with the inhabi-
tants of the town and soldiers, and a number of the
officers, in the forenoon; and another in the country
in the afternoon, both to pretty good satisfaction.
Jacob Lindley, William Savery, and William Harts-
horne, dined with the commandant yesterday. With
respect to Indian affairs, things look dull and gloomy
— the commissioners not yet come forward; so that
we are here in suspense with respect to the time of
the opening of the treaty, and hear many frightful
stories about the conduct of the Indians; but we en-
deavour to keep our minds quiet, trusting in the
arm of divine power for preservation, and believing
we are engaged in the righteous cause of promoting
peace on earth and good will to men. ytf of our company, to wit, Friends, went down the
river in a small boat, about four miles, to Frederick
Arnold's, where we dined — then went on foot about
two miles to John Messemer's, who is of the reli-
gious society called Dunker's, — with whom and
divers of his friends and neighbours we held a
Our landlord’s boat set out for the river with grain, to the mill. I took passage therein with William Savery. Matthew Dolson met us at the mill, and William returned with him in the evening; I stayed all night at Jacob Troxler’s, a Dutchman, who served his time in Jersey. The people were as kind as it was in their power. rowed most of the way home, being about ten miles. This river is called Rushe, which signifies red, and the water appears stained with something which causes it to appear with remarkable redness.

John Heckewelder returned from Latrench river; with him came a number of Moravian Indians, who adhere to their religion of that family of the brethren. We understand they suffered much in the time of the late war, and since, — having had a number of their friends killed by the white people, with the loss of most of their substance, of which they had plenty while in their peaceful habitations at Muskingum. They were now in the sixth place of their retreat, in the British government, and on good land. Our commis- sation was excited by the above account, and we granted some relief to the amount of one hundred dollars, which they received thankfully.

The Indians are every day here, on their way to the treaty. Twenty-eight are just arrived from Michillimackinac; some of whom I saw this morning; they were well dressed, curiously painted, and decorated with wampum, and ear and nose bobs; all young, and the handsomest I think I have as yet seen. They appeared good humored and pleasant.
having, as I was informed, brought no arms or
warlike instruments with them, except their bows
and arrows, with flutes for music of their own
making, which appeared simple, but pleasing to
themselves. Some of the British officers asked
them to play, which they readily did, by putting
the instrument to the mouth, and sometimes to the
nose; as handily to the one as the other. This evening had the company of capt. John Drake,
a coaster between this and Mackinaw, distant one
hundred and thirty leagues — sails in a sloop of sev-
enty or eighty tons burthen. He gave us some
account of the north-west fur trade, and the man-
er of its being carried on by the companies con-
cerned, who employ many hundred men, that stay
many years in the country, travelling and trading
with the northern Indians for peltry; an abundance
of which, of the richest kind, is brought from the
high northern latitudes, which nets the companies
very large profit. But among what people, or in
what part of the world, except the Canadian French,
could persons be found for their purpose, I know
not. They are allowed a very small portion of
provisions from this to the Grand Portage, at the
head of Lake Superior, which is about eight hun-
dred miles; there they are allowed about one bushel
(forty-two quarts French measure) of Indian corn
per man, for a year, and a little fat, which they
may use at their own discretion. The corn is pre-
pared in a curious manner at Detroit, being first
boiled in strong lye, which takes off the outside
hull; afterwards it is spread out and dried, then
packed up for use. With this they set out, and re-
y turn not until the end of the year, when a fresh
supply of goods is taken up with canoes, &c. by many hundred men to the Portage, where they exchange commodities to a very great amount. Thus goes on the trade from year to year. The men in the north live principally on fish, and they flesh of beasts of divers kinds, without bread or salt, and when they return appear as robust and healthy, and even more so than those who live on the greatest delicacies. The principal fish in Lake Superior are the white fish and salmon trout, which are fine and delicate: we have eat of them, brought fresh from theyt lake to this place in six days. We understand one M'Kenzie is now out with ten men, exploring the North-west Territory: he once attempted it before; was out more than a year, and discovered large frozen waters in the north, but, whether lakes or ocean, he knew not — supposed the latter, the water being salt. We Captain Drake, by his own account, had been several voyages to Africa, in the horrid business of fetching slaves, which he now very much condemns. He told us many curious tales; — and is certainly a very temperate man with respect to drink, taking nothing but water — a rare instance in a seafaring man. Happy would it be for many thousands in the world, were his example followed in that respect; families would be preserved from ruin and distress, morality increase, the poor Indians be saved from many acts of violence, and the end of our creation be more fully answered by honouring God, our Creator. We are frequently visited by the officers of this place, both civil and military, who appear friendly, and treat us with much respect, often
wishing us success in our laudable undertaking; assur-ing us, that nothing should be wanting that lay in their power, to render us happy and comfortable. The commandant said, that if he apprehended danger at any time, he should lay his commands on us not to depart the place. But, although we sought not the protection of military power, we were not insensible of his great good will towards us, which we were not wanting to acknowledge. Visits from the Indians are almost every day repeated, by different tribes constantly coming in, this being the thoroughfare for all the northerny Indians. It would be difficult to describe the various appearances they make, and languages they speak. It is wonderful to find the vast expense the British government is at with this people. Governor Simcoe said it cost them thirty thousand pounds per annum. Here are agents appointed, that are daily giving out large quantities of provision, &c. who appeared to have much concern respecting the approaching treaty, and mentioned the remembrance of some long and broad belts that were given out in former treaties, intended to bind us by the hands and arms, so that no small accident in future should be able to make separation; and, notwithstanding all that had happened, they (the Wyandots) felt some of the old affection to remain, and he hoped we would find it so at the general council; but could speak for none but themselves. We assured him we had the same love and friendship for them and all others, as our forefathers had, and that our principles had always restrained us from war; and when believed the government was disposed
ytf We often hear many frightful things suggested; as, that we shall be either tf killed, or kept as hostages at the ensuing council. This, with the accounts tf of the Indian warriors in time past, frequently passing with numbers tf of scalps and their disconsolate prisoners, seemed dreadful; yet we are not tf discouraged from pursuing our first prospect; believing he that put us forth, will go before us, if we are not wanting on our part. ytf It must be said to the honour of British humanity, and in commendation of this government of Upper Canada, and tf its truly respectable and generous officers, that they have interfered the relief of great numbers of persons, and obtained their redemption at a great price; divers of whom that we met with appeared as the outcasts of Europe; some of them, as colonel England” and other officers told us, ytf hardly had manners or gratitude to acknowledge the kindness, though in some tf instances it cost one hundred pounds. But in the case of a realyf American, they never grudged it. ytf ytf ytf 30th. ytf First of the week. This morning we were visited by a principal man of theyf Wyandots, called the Blind Chief, with his nephew, grand, and great grandson; with whom we had some friendly conversation. ed his days by the immoderate use of strong drink. On this occasion there was a good deal of form and ceremony, in their way. 2d. Yesterday arrived the ship Ottoway, captain Cowan, from Fort Erie. Heyf brought about eighty Indians — more than sixty were landed at Miami rapids, with colonel Butler; eighteen of the Oneidas were on board here. It was said Butler was fearful they might be hurt by some other Indians that were there, on account of some dislike they had to one of their chiefs, who had given his interest in favour of the Americans, in such a manner as to create jealousies amongst them. They notwithstanding apprehend themselves quite safe in the British lines, where the tribes of all the nations from east, west, north, and south, are daily supplied with provisions, &c. And we hear nothing but wishes for peace among the people everywhere. This day we crossed the river in our landlord's boat, with himself, wife, &c. to his farm, where we regaled ourselves with fine ripe cherries, and towards evening returned. The weather very warm, and for many days past it has been very wet — but through divine favour we are preserved in good health. 3d. We had a visit from colonel England, who is constantly manifesting his regard in a very respectful manner. Heyf invited us to walk with him to his garden, and some of our company went. Weyf had also the company, at our lodgings, of a young Shawnee chief, neatly and richly dressed in Indian style; he stayed and dined with us, behaving with decency at table. But we sometimes find great difficulty in conversing with the Indians, in such a manner...
tier as we wish, on account of our interpreter's sentiments and prospects differing in some respects so widely from ours. 4th. I was this day very poorly with a fever.—

We were visited by fourteen of the Indians that came in the Ottoway, with one Shawnee, who finding our doctor M'Caskey had been with St. Clair's army at the time of the defeat, told him, you're my friend, though you ran away from me once. still in suspense, and weary of our long detention here — though we are well supplied with provisions, &c, and decently treated by our respectable landlord and landlady, as well as by the inhabitants in general, being often invited to dine, &c. In the evening I felt better and slept pretty well. 5th. We are much confined within the narrow limits of this small garrison town, where, the streets being narrow, there is a want of air. Ay favourable opportunity presenting for a small tour on the water, we, except William Savery and William Hartshorne, went in a boat, provided by our friend William Baker, up the river about nine miles, to Nathan Williams's, where we were kindly received, and dined. His place is situate at the entrance of Lake St. Clair. While here, Nathan gave us any account, that in digging a cave for a root house, they found, about six feet below the surface of the ground, large quantities of human bones, that must have been for a long time there: and at another place on the bank of the lake, it being washed away when the lake was high, there were seen great numbers of the same kind, which they gathered up and buried. The Indians said they must have been ytf
from people a great while ago that they knew nothing of. There is also near this lake, as we are informed, the appearance of old forts, curiously made in ancient time, where pieces of earthenware are often found, though large trees are now standing in the entrenchments, of which the present Indians can give no account. We seem pretty generally led to believe, from various circumstances, that the natives of this land must be the descendants of old Jacob, and are of the scattered tribes, who probably found their way here through Russia, and crossed over the narrow strait from Kamschatka to the west side of America. Be this as it may, we find them here in great numbers, at present a savage, barbarous people when at war, and more particularly when intoxicated with strong drink, which has been introduced by the white people that suppose themselves by far their superiors in religious and natural understanding. Happy would it have been for them and us, had we used those superior talents, in mercy conferred upon us, more to the honour of God, by following the example of our holy leader, Christ Jesus, who said he came not to destroy men's lives, but to save them. May all Christendom more and more labour to experience renovation of heart and mind, submitting and conforming to the will of heaven in all our conduct, consistent with the design of our creation. Then might we have reason to hope for a blessing on our labours, tending to stop the effusion of human blood, and the establishment of Christ's kingdom on the mountain of love and holiness, where the lion and the lamb might lie down together, there being nothing to make us afraid. In the afternoon we re-embarked and returned to
town. Wm. Savery and Wm. Hartshorne in our absence, were visited by a Shawnee warrior, who announced to them what had frequently been suggested to us before, by divers persons, that if the commissioners did not immediately agree that all the land west of the Ohio should be given up by the United States, or even hinted any thing to the contrary, by offering gifts or money as purchase, that not one of them or their company would go off the ground alive; for their fathers, who were all gone, had sold lands for knives, rum, &c. till they were now driven almost to the sun setting, where they were determined to make stand. He also pointed out very sensibly, the sad effects strong drink had on their fathers in general. He then appeared perfectly sober — informing that four days before he left the Miami Rapids, a deputation of two chiefs from a tribe, embarked for Niagara to meet the commissioners, and let them know the outlines of their conclusions; and that if the white people would settle to the banks of the Ohio on the east side, and agree that the river should be the line, they would be glad, and take them by the hand and call them brothers. But we apprehended no such power lay with the commissioners, nor of its being the design of government, — the cloud looked dark and heavy, and portended some dreadful scenes of desolation, except the Lord should be pleased, in his abundant mercy, to interpose and spare this wicked generation. The aforesaid Indian, notwithstanding his sensibility and calmness, about two hours after, returned much intoxicated with rum — behaved very rudely, and drew a stroke with his tomahawk at one Sylvester Ash, an interpreter, who had long resided with...
the Shawnese, and now lives at Fort Pitt. We supposed he had a grudge against him for leaving them; but Ash prevented his doing him mischief. This, with insolent behavior to our landlord, caused Captain Munsey, who was there, to send some soldiers to turn him out of the garrison. These things look gloomy, and tend to confirm us that nothing short of wisdom from above will do for us to lean to.

6th. The weather is now dry and warm — the wheat is fast ripening, of which there is an appearance of very fine crops. Vegetables are plenty, such as new potatoes, peas, beans, &c. The sloop Felicity just arrived from the Miamies, confirms the account of the Indian deputation being gone to meet the commissioners at Niagara, accompanied by Colonel Butler and Simon Girty. The schooner Nancy also just arrived from Michillimackinac, with peltry — made her passage to this place in seventeen days — distance three hundred and ninety miles. The forenoon in the old sail loft it was to good satisfaction, being large and solid. In the afternoon we went about five miles to the river Rushe — held a meeting with the inhabitants there and several who went with us from the town. This also we thought comfortable and edifying.

7th. First of the week. We held a meeting in the forenoon in the old sail loft; it was to good satisfaction, being large and solid. In the afternoon we went about five miles to the river Rushe — held a meeting with the inhabitants there and several who went with us from the town. This also we thought comfortable and edifying.

8th. The weather hot and sultry — a heavy thunder shower. We have no account from the commissioners — hope they may come on with the Indian deputies, if anything is likely to be done. This is truly a trying scene to us, to be kept in this expensive place so long in suspense; yet hope it may not be altogether in vain. We think we have done the
best we could in our present circumstances. Various reports are daily coming in, with respect to the Indians' disposition. We much desire an opportunity with them in council, if it could be come properly, whether the commissioners come or not. The opinion of many is, there will be no general treaty. We received a letter from colonel M'Kee in answer to one written him some time ago; — says he will attend to our request, and give us every intelligence he apprehends necessary; — and yesterday, one from captain Hendricks, at the rapids of Miami, requesting some favours from us, — which were granted. And truly we have many requests, that in our present circumstances we are not able to comply with to the full. Hendricks' account is more favourable than some others we have had. He expresses a hope there will be a peace. The general cry among the gentlemen and more knowing inhabitants of this place is, for God's sake, gentlemen, don't venture yourselves to Sandusky. This we believe is from motives of entire friendship and good will to us, and makes it at times very trying. And though we have not felt any slavish fears — yet hope to move cautiously, as wisdom, which is profitable to direct, may point out the way. One of the Indians, a Delaware, that brought captain Hendricks' letter, says the western Indians keep their runners constantly out to watch the motion of general Wayne's army, from whom they have some fearful apprehensions; which we hope are groundless. We had a visit from captain Blue Jacket, a principal warrior among the Shawnees. He was in command at the defeat of St. Clair's army. He was richly dressed. His appearance is lofty and masculine.
He said he had heard of the Quakers — that they were aytf harmless people that did not fight; and was glad now to see us. We had alsoytf a visit from several others of the same tribe. One of a solid ytf countenance said, he heartily desired we might succeed in the great work ofytf peace; and appeared much pleased to see us. We have several capable ytf interpreters with us; but our sentiments being peace-ful, serious andytf religious, are so opposite to theirs, that when they do interpret, it isytf with such reluc-
tance as puts it out of our power to relieve our mindsytf so fully as we could wish. This day received a letter from the Moravian Indians and their minis-
ter, ytf expressing their grateful sense of Friends' kind-
ness to them. ytf ytf ytf 10th. ytf The sloop Detroit, bound to Mackinaw,ytf ar-
rived from Fort Érie in eight days. ytf We were in hopes of letters, but were disappointed. However weytf understand the commissioners, with a number of Indians, are coming in theytf Dunmore which was nearly ready to sail, and may be soon expected, if ytf not met with by the Chipaway, and detained byytf the chiefs who were to have a conference with them previous to theirytf coming forward to the treaty. ytf ytf ytf 11th. ytf Had the company of several Indians — one of whom, David Canada, speaks good English, and interprets well. Hisytf father was a white man. He has been in Europe — appears friendly to theytf Ame-
rican interest, and says he will go with us to the treaty. ytf ytf ytf 12th. ytf We all went over the river to our land-
lord's farm, where we dined onytf provision we took with us. Spent most of the day there and inytf visit-
ing some neighbours. Returned in the evening. ytf
The sloop Sagonay is just arrived from Forty Erie. The Dunmore was waiting for a wind, when the deputation of Indians arrived — and the commissioners returned to Navy Hall to have a conference. This is an additional disappointment, and further trial of our faith and patience. The weather fair and pleasant — the people very busy in hay-making, and some beginning their wheat harvest. In the afternoon the sloopy Speedwell arrived from Fort Erie, by which we had letters from our friends at home, and one from the commissioners, informing of their return to Navy Hall; but that they expect to come forward in a few days. I felt rather dull and heavy — my spirits low. I feel the importance of our embassy with much weight. — The dark conversation frequently heard respecting war, is truly distressing and discouraging. I am frequently led to recur back to the first principles from whence the concern took its rise; and have, as yet, no cause to doubt of its propriety, although many discouraging prospects are frequently thrown in our way. We are comfortably preserved in unity one with another in the main cause we are engaged in, hoping we shall not be shaken from the right ground by the enemies of peace, — of which there are many. This day we had another meeting in the usual place, which was large and solid. Had an interview with captain Elliot, who had just returned from the Rapids, where the Indians are collected; but nothing further has transpired. He appears somewhat reserved; and our anxious state of suspense still continues. We are apprehen...
sive the Indian embassy to the commissioners may prevent theyf proposed treaty. We wrote a letter to colonelytf McKee, and an epistle to the Indians, to be forwarded theyf first opportunity. ytf Here we observe a species of Indian slaves called ytf Pawnees, or Punins, — who are captives takenytf by the Chipaways from the Suse, or Pawneeютf nations. It is sorrowful to think that a nation so famed for liberty, ytf should hold them, and a number of the African race, in a state of bondageytf during life. The government here, we understand, has made some essay ytf towards their enlargement, which, it is hoped, will, in time, amount to aytf total abolition. ytf ytf ytf

16th. ytf Had a solid opportunity with captainytf Elliot, deputy agent for Indian affairs, and againytf expressed our anxious desires to him, that a solid peace might takeytf place; we also queried if it would be proper for us, or any of our company,ytf to visit the Indians in their present council at the Rapids, where he was now about to return. Heytf told us, he thought in the present state of things, it would not beytf eligible to move that way. He gave us to understand, that the Indiansytf were generally acquainted with our being here, and our views towards them;ytf and hoped on the return of the Indian embassy, some way would open forytf our relief. For the present, we concluded to forward the letters to and theyf M'Kee Indians, by ytf Elliot, and as our having a personal interviewytf with the Indians appeared doubtful, we forwarded Friends' Address toytf them, to be read by M'Kee in case we ytf should fail of an opportunity ourselves. ytf ytf ytf

17th. ytf The people are very busy in their harvest, ytf having good crops: but in someytf places the grain is ytf
injured by a kind of smut, supposed to be occasion-
ed by much yf wet and rapid growth. yf We have lately heard of the arrival of a number
of Creeks and Cherokee Indians, yf the neighbour
hood of the Indian council — we fear, with views not
yf friendly to a peaceable accommodation of matters
with the Western Indians — yf as we hear hostilities
between them and the whites have been renewed yf
to the southward. These accounts are alarming and
discouraging. Theyf commissioners are not yet come.
We wait as patiently as we can, until we yf hear fur-
ther from them. yf yf yf 18th. yf This morning had an interview with cap-
tainyf Wellbank, who came with the detachment of
yf Cherokee and Creek Indians from the southern ter-
ritory, he says, more yf than a thousand miles, and
that they were ninety days on their journey.yf His
principal business seemed to be with colonelyf Eng-
land, who gave immediate orders for the sloopyf Fel-
city to sail with him on board, to Fortyyf Erie, on his
way to governoryf Simcoe. We suppose they have
some matters of importance, as yf colonel England
a few days ago assured us the Felicity was detained
only yf purpose to take us to Sandusky, or Fort Erie,
as was most eligible, on theyf shortest notice, which
looked kind and friendly to our purpose. yf yf yf
Divine favour, we are all in yf health ; but are still in
great suspense, with respect to the event of thisyf in-
tended treaty, which every day looks more and
more discouraging.yf Yet we think we have been in
the line of our duty in coming forward and yf labour-
ing thus far; and hope our being here may be of
some use onyf divers accounts. Some of our compa-

19th. yf The weather fair and pleasant, and through
ny walked yesterday to the spring about three miles below theyt town, where they had a satisfactory opportunity with some Oneida Indians that were encamped there. Theyt seem jointly concerned with us for the accomplishment of peace. This dayt we were all together in the arbour in the colonel's garden, lookingt over some writings on Indian affairs. To this place we frequently resort, ytff as it is retired and pleasant — being indulged with this privilege by ytff invitation from the colonel soon after our arrival here. ytff ytff 20th. ytff The harbour is now clear of shipping. — We are anxiously waiting theytff arrival of the Dunmore, by which we expect the commissioners, or to ytff hear from them, hoping our detention here will be shortly closed by ourytff going on to Sandusky, or returning toytff Fort Érie on our way home: tittyff which we desire humbly to submit to the wise Disposer of events. ytff ytff 21st. ytff First of the week. We held a meeting in the sail loft at the tenth hour, ytff which was a favoured time, it being large and solid. Soon after ourytff return, we heard of the arrival of the Dunmore at the mouth of theyt river, by a passenger who came in her, and that the commissioners are onytff board, expecting to go forward soon to Sandusky. In the afternoon we had another comfortabletff meeting, crowned as we thought, with the Master's good presence. And ytff now it looks likely to be a parting one, — the people behaved withytff remarkable quietness — manifesting much respect to us. I believe there areytff a few tender-hearted ones in this place that will remember us, and lytff hope we shall not forget them; — though it is sorrowful to behold the powetyff and influence that ytff
satan has too generally amongst the inhabitants of theseytf parts. Captain Gibbons, who came passenger ytf in the Dunmore, gave us the above intelligence respecting theytf commissioners, and further says, the Indian deputys and they held a veryytf friendly conference together at Navytf Hall, and things appeared in a favourable way respecting theytf treaty. This account is more pleasant than any we have had for manyytf days past. In this fluctuating state of things we find great need to keepytf on the right bottom, so that we may not be shaken from thatytf foundation, and a humble confidence in the Divine power, which I trustytf we felt in our embarkation. ytf ytf ytf a visit to the Roman Catholic priest, who appeared to take itytf kind. We also had a short interview with the commandant, who has manifestedytf much respect to us during our long stay here, and now told us, thatytf nothing should be wanting that lay in his power to make our way easy. ytf ytf ytf 22d. ytf ytf John Parrish, Johnytf Elliott, and myself, 23d and 24th. ytf We now began to prepare for leaving Detroit. The commandant visited us at our quarters, andytf informed us he proposed going with us in the Dunmore to see theytf commissioners. It seemed very pleasant to find that respect which it isytf hoped may tend to strengthen the unity between them. — We should haveytf been glad to see the commissioners here, but understanding neither they norytf any others from a foreign state under military characters, are ytf admitted within the limits of this garrison, which includes the town thatytf consists of about one hundred houses; under which consideration we thinkytf it cause of thankfulness for the indulgence, remarkable attention, andytf kind treatment we have met with ytf
during our six weeks stay in this place. This evening, paid a short visit at commissary Rinold’s, who, with his wife and sensible daughter, appear to have as much solidity, uprightness, and vital religion, as any in the place. There are a few others we highly esteem, and towards whom we now feel a near affection on taking our solemn farewell. 25th. Took leave of most of our acquaintances in town and went on board Dunmore, in which were colonel England and several other officers; fell down to the mouth of the river, about eighteen miles, and landed at captain Elliot’s, whose house the commissioners had taken, being large and convenient for their purpose. We were truly glad to see them, and they us. Here the vessel is ordered to lay until we are ready to go forward to Sandusky, which depends on the time the Indians say they are ready. It was pleasant to behold the friendship apparent between the colonel with the other British officers, and our commissioners. This place is very agreeable; there being a large farm, with fields well stored with grain, standing in shock — supposed to be about one thousand bushels; large new barn eighty feet long and about thirty-six wide; round house a beautiful green, on which we encamped with fourteen tents, large and small, containing our little company and the commissioners' train, with some British officers who designed to go with us to the grand treaty. The commissioners gave us the substance of what passed between them and the Indian deputies at Niagara: all which appeared encouraging, and favourable towards an accommodation. We dined and supped all together, and slept quiet and well in our tents.
Spent the day very agreeably together, having one general table. At night we had a great rain and heavy thunder; our tents not as well fortified as might have been. Towards day some of us got very wet by the water coming in; but through Divine favour we were preserved. 27th. A fine morning. Having an opportunity to go to Detroit in a small boat with Gotlieb Sensiman, a Moravian minister from Latrench river, and three Indians of their family, we embraced it. William Savery and myself took our passage in order to do some business for the commissioners, and little for ourselves. The wind was ahead and we had to row all day's way, Went to our old quarters. 28th. First of the week. I felt weary with yesterday's hard rowing, and almost ready to give out the prospect of a meeting. But towards evening, at about an hour's notice, we met at the old sail loft with many of the inhabitants, who appeared glad of the opportunity, and it was satisfactory to ourselves. 29th. The colonel's boat going down the river to our camp, with captains Freeman and Broadhead, we were invited to return with them; but our business not being completed, I concluded to stay, and take my passage in the schooner Nancy, bound to Fort Erie, and William Savery went with the officers. 30th. I went on board the schooner, and near night landed at our camp, where it was informed a deputation of Indians from the Rapids had been here, and held a conference with the commissioners. They appeared uneasy with what had passed at Niagara, asserting that nothing short of Ohio river being the line, would satisfy them; they requested the commissioners’
answeryt to-morrow, on that head, and re-tired over the river. This unexpectedy change look-ed again discouraging; believing our worthy com-missionersy had nothing but upright views in their proceedings, consistent with theyt trust reposed in them by the government of the United States. Though ytf what their views are, is yet unknown to us; but we hope, and expect, theyyt will be generous and liberal, evincing to the world that the presentyf proceedings and designs of the United Statesyf are founded on reason, equity, and justice. And so far as this may beyt the case, we hope the Lord may be on our side, in this our tryingyf situation. ytf ytf ytf 31st. ytf being seated on the beautifuly green in the shade of some trees, the commissioners came forth withyf their speech in writing, which was interpreted by Thomas Jones, from the Genesee, in the Seneca lan-guage. In it was contained manyyf candid and gen-erous proposals; but not coming up so fully to their ytf demands as they seemed to wish, they declined to make any reply at present.ytf But having the paper given to them, said they would consider ityf mature-ly, and return an answer tomorrow. On which the council brokeyt up, and the Indians returned again to ytf Whitewood Island, opposite to our camp.ytf Among these were the chiefs often different nations, who ap-peared inyf council solid and sober. ytf ytf ytf 8th mo. 1st. ytf In the afternoon the Indians came over, and morning early, and being seated, theyyf Wyandot chief called Carry-all-about, whose name signifies King of ytf all the western nations up the Lakes, — made a short speech, importing.ytf That many treaties had been held at different placesyf from time to time, wherein ytf
you say lands have been purchased; but would ac-
knowledge no legal and permanent conveyance
since the treaty at Fort Stanwix, twenty-five years
ago. Soytf that the lands on this side the Ohio are
ours, and the lands on the other side are yours. —
And youytf may go home and tell Washington what
ytf we say. We understand all you said to us very
well, and we expect youytf understand us. ytf Simon
Girty was their interpreter. After ytftf rising up and
stepping off a few yards, they found a mistake in
ytf expression, and recalled their words, desiring the
commissioners would stayytf where they are, till they
could go to the council and return with anytf answer,
which, if favoured with wind and weather, may be
accomplishedytf in about five days. We had some de-
sire to go with them to the Rapids, as captainytf Elliot,
captain Thomasytf M’Kee, and others were go-
ing to the council. But this wasytf not approbated;
and as our letters sent by captainytf Elliot had not
been forwarded by him on account of hisytf meeting
the commissioners here, who thought proper to de-
tain them, ytf concluding we should have an opportu-
nity shortly to see them ourselves, — ytf after opening
and reading them, and adding a short postscript, we
wereytf encouraged to send them forward, though at a
late stage ytf ytf 2d. ytf Towards evening, several of us in company
with our good old general, took aytf walk up the river
about a mile, and drank tea at Jamesytf Colwell’s. The
result of this great business is cause ofytf much close
exercise at times — our minds being made sensible
thatytf nothing but supernatural wisdom will do for us
to lean to. ytf ytf ytf 3d. ytf The sloop Detroit came to, here, on her way
ytf
to Fort Erie, from Michillimackinac, loaded with peltry, having on board three hundred and thirty-three packs, the greatest part supposed to be worth twenty guineas each. So great is the fur trade in this country, that it is almost beyond description. In the afternoon, John Elliott and myself took a walk to Simon Girty’s, and from thence about half a mile further down the lake, where we saw some plain traces of one of the very old forts, among the many that are in divers parts of this country, of which the present Indians can give no account from tradition or otherwise. 4th. We held a small meeting at Simon Girty’s, we hope to profit: — himself gone to the Indian council with the deputies that were here from the Rapids. William Savery and myself being comrades in a small tent, our bedding got a good deal wet with the great rain that fell today, and having no opportunity for drying, we slept on them as they were. In the morning, felt well, which is an additional cause of thankfulness for the many favours we have received. 5th. We have frequent visits from the town, — and this day came James Abbot, William Bow, and — Sportsman, in a small sail boat. Our friend John Parrish, paid a visit to the Wyandot Indian town about four miles from our camp. This night was the most general complaint of the musketoes I have yet heard since our encamping here. Most of us got little sleep either in the house, tents, or on ship board. Towards day the weather grew colder — wind N. W. which caused an increase of musketoes in our tents. 6th. One of the servants of captain Elliot, called
ytf Toby, a Pawnee slave, who has lain near a year in a consumption, died about two o'clock this afternoon. ytf I was with him for about an hour before he departed, and speaking with him about fifteen minutes before he breathed his last, found he was sensible of death being upon him. He said he understood all I said to him, and was glad he was noticed in his last moments. I think I never saw before so hasty a burial. His coffin was made immediately, and his interment took place about sunset, in a grave near by on the bank of the river, attended by about twenty people, whites, blacks, and Indians. This was the end of poor Toby. ytf ytf ytf 7th. ytf wards evening walked to Simon Girty's. At night the wind came strong from the south, with much rain. William and I got a little wet again, but are preserved in health. ytf ytf ytf 8th. ytf Two Indians came from the Rapids, by whom we received letters from captain Hendricks, chief of the Five Nations, announcing his opinion there will be peace. This was pleasant, indeed, and we sat up this evening, conversing with the commissioners till past eleven o'clock. Slept well, being clear of musketoes. ytf ytf ytf 9th. ytf ytf William Savery and myself dined on the ship that rides nearly opposite our camp. This evening came in several more Indians from the Rapids, whose reports agree in substance with captain Hendricks' letters. They were treated with a glass, and encamped near by; but a canoe coming from Detroit with rum, they were made very noisy. This, with the musketoes, caused little sleep. ytf ytf ytf 10th. ytf Great looking out for the boat's return from.
the council, for which we are very anxious. The season advancing, and the great distance we are from home, together with continued uncertainty of succeeding, according to our wishes, in great business we are engaged in, accompanied with other unpleasant circumstances, give us at times some very disagreeable sensations. Yet the whole, we are preserved in a good degree of patience, believing our coming out was right, be the event as it may. With some difficulty we got to Grose Isle, where we held a meeting with some of its inhabitants and divers from the main, to a good degree of satisfaction. This morning, Jasper Parrish, who had been express to Philadelphia, the second time, arrived in the ship Ottoway, from Forty Erie, by whom we received many letters from home.

11th. First of the week. No arrival from the Rapids to alleviate our strong desires and anxiety to see the Indians. With some difficulty we got to Grose Isle, where we held a meeting with some of its inhabitants and divers from the main, to a good degree of satisfaction. This morning, Jasper Parrish, who had been express to Philadelphia, the second time, arrived in the ship Ottoway, from Forty Erie, by whom we received many letters from home.

12th. Our anxiety and great suspense still continue. William Savery and Jasper Parrish both poorly. At night our rest was much disturbed by musketoes. We have frequent visits from small parties of Indians, who sometimes find means to get too much rum, and are then troublesome; otherwise they are quiet and civil. Fresh provisions are plenty here; but rate very high. Sheep from four to six dollars, not large.

13th. No remarkable occurrence. We are still looking earnestly for the boats from the great Indian council.

14th. This day we had the company of captain Wellbank, who returned some days ago from Niagara. He gave the commissioners much the same
account we received from him at Detroit the 18th ultimo. ytf ytf ytf 15th. ytf Felt dull and heavy in body and mind --
We have a Wyandot Indian, who stays much with us. He often goes out toytf hunt, and brings in plenty of ducks, &c. for which he gets well paid.ytf He appears to be a sensible man, speaks many languages in the Indianytf tongue and some English. Two men came from the other side of the river, andytf informed the boats were coming from the council to invite us to theytf treaty. ytf ytf ytf 16th.ytf In the afternoon came two young Indian men, (Wyandots) they looked wild and afraid; one of them wasytf introduced to general Lincoln, and handedytf him a message in writing, from the great council, informing, that theytf several treaties at Fort M'Intosh,ytf Miami, Muskingum, &c, where lands had been ceded by two orytf three nations only, were not valid, as they had no right to cede lands.ytf And as for the large sums of money proposed to be given for theirytf country, they did not want it, and a great many of them did not know theytf use of it: therefore desired it might be applied with the proposedytf salary, to the indemnification of the settlers north of theytf Ohio. And as they supposed they wereytf mostly poor people, or they would not have settled on dis-puted lands,ytf they now proposed that government should give the money to them. It wouldytf be a suf-ficient compensation to those settlers, and might in-duceytf them to move quietly somewhere else, out of the Indian country — and makeytf the Ohio the bounda-ry: for it was theirytf land. And signified, as the land to the westward was filled up, they hadytf no-where to repair to, and were now determined to lay
ytf their bones in that country. As to the concessions
the commissionersytf proposed making, by giving mo-
ney, they did not want it; and running a newytf line
was but giving them a part of their own land. And
as toytf disclaiming the right to all their country by
virtue of the peace made withytf the king, their father,
they knew they never were conquered, and theytf pre-
emption right agreed on by the British and United
States,ytf concerning the purchasing of their country,
could not be binding on them;ytf for they supposed
they had a right to sell their lands to whom they
ytf pleased. Upon the whole, it was received as a very
contemptible speech, byytf our commissioners — which
soon appeared to be the case, as the baggageytf was
ordered on board, and caused an alarm in our camp. ytf Some for safety proposed to lodge on board the ship,
and divers tents wereytf struck. Some went on board,
and others took to the house for safety. Thisytf pros-
pect, all on a sudden, looked gloomy, and Friends
got together toytf feel if any thing further opened for
us to do. We felt much shut up; — andytf as we had
never been called into council with the commissi-
erors, nortf had any public conference with the Indians,
we were obliged to bear our ownytf burthens, and sub-
mit the awful subject to the interposition of theytf Di-
vine hand, and turn our faces homeward to our dear
friends andytf connections, in hopes of reaching our
Yearly Meeting. ytf This evening, two runners who were despatched
three days ago, returned withytf a verbal message from
the Five Nations, whoytf expected us to come for-
ward, and were moving six miles down the riverytf to
meet us. They having all along appeared very
friendly to theytf United States, this appeared an art-
ful manoeuvre, on one side or the other. It was somewhat extraordinary to hear general Lincoln express, that they had received just such an answer as he could have wished. What his meaning was, is unknown. Friends slept in their tents heretofore, I believe with little fear. We were hurried on board soon after breakfast, with the remainder of our baggage. Two runners were dispatched by the commissioners to the Six Nations, the object unknown to us. About eleven o'clock, we were all on board, and stood down the river into the lake. My mind felt sorrowful and very heavy, reflecting on their important subject of our journey; but I could see nothing material omitted on our part, to give uneasiness: so I endeavoured to rest quiet, leaving the event to Him who judgeth righteously. In this part of the world, but little morality, law, or religion, appears to govern people, though the climate is blessed with health and there is plenty of the good things of this life; nothing being wanting but industry and thankful hearts. First of the week. We came to anchor among a cluster of islands in the west end of the lake; of which there is said to be about thirty, great and small. Some of them produce abundance of red cedar, much used in shipbuilding — there are also raccoons and many other wild animals on them. We stood out into the open lake with pleasant weather. Had a season of solid retirement in the cabin, with a few of our fellow passengers, to a good degree of satisfaction and comfort; though held in much contempt by others, who supposed themselves wise and good enough already.
Light head wind. We have thirty-one passengers on board, besides the ship's crew and marines. Provisions plenty — poultry, sheep, hogs — and two bears belonging to captain Bunbury.

We passed the mouth of Cayahoga river, and in sight of the Looming-hills on the south shore, land claimed and held by the Delaware Indians. — The light and trivial conversation on board accompanied with such a degree of profanity in language and behavior one to another, at times, was truly distressing, though otherwise we were as comfortably accommodated as the nature of our situation would admit.

We anchored at Fort Erie. — 23d. Rainy, no goods or baggage could be landed, as the lake was rough, which caused a great surf. 24th. Morning fair and calm — a great stir, hoisting out casks, trunks, &c. The commissioners preparing to set forward, some by water, others by land. William Savery and William Hartshorne are to go with general Lincoln, by Ontario. Jacob Lindley is provided with a horse by the commissioners, and goes by land; so that we are all busily engaged fixing our baggage each in his own way, clearing off all expenses for passage, &c. Truly we may say, by this time, we became pretty much stript of our purses, and a great deal of our stock of provisions, &c. John Elliott and John Parrish went on shore in the afternoon, to get to some Friend's house. Jacob Lindley and myself went in the evening to the house of Benjamin Willson, who had been on board with us all the afternoon. I felt myself in some measure, like one let out of prison. Here we were kindly treated and lodged; proposing to visit a
number of Friends and friendly people, in and about
this neighborhood, before we set out for home;
which seemed annexed to my concern in coming
forth to this country, to attend the proposed treaty
with the Indians. 25th. First of the week. We held a public meet-
ing, and visited a few families — towards evening,
got to Asa Schooley's, where John Parrish came to
us. Here we lodged. 26th. John Elliott came to us this morning — so
that we are now all together again. We went to John
Herrit's, son-in-law to Asa Schooley, had a sitting
there and returned to Asa's — there had a solid op-
portunity with his family and the family of John
Cutler together; — after which, went to Daniel
Pound's and lodged. 27th. We held a public meeting at Joseph Haven's,
which was large and favoured; at the close,
we had a select opportunity with such as profess
with Friends, a number of them being members, to
whom some interesting matters of advice were communicated. Upon the whole, we thought it a very
solid and profitable opportunity, many hearts being
tendered; for whom, in their lonely situation, we
were brought into near sympathy. We parted from
them in much love. John Parrish and myself went
to Ezekiel Dennis's, up the side of Lake Erie about
six miles, where we were kindly entertained and lodged. I think when the meet-
ing was select as above mentioned, there was in the
whole, young and old, about forty — many decent
looking young people, with innocent countenances,
were present; on account of whom I felt much con-
cern for their religious and school education.
28th. Set out and rode up the beautiful beach on the lake shore, about ten miles, to what is called the Sugar Loaf, a point of land extending out in the lake, with a remarkable round hill, at a distance resembling a sugar loaf. Here we visited seven families, and returned in the evening to our friend Asa Schooley’s.

29th. With divers other Friends, we went about twelve miles to esquire Powell’s, where we had a large public meeting of Friends and others, to much satisfaction to ourselves, and I believe it was so to the auditory. They behaved quiet, and with becoming decency. After which many Friends took leave of us in much love and tenderness, and departed to their several homes. We dined with the esquire, being freely and liberally entertained. Afterwards I rode about four miles to the fort, and went on board the Dunmore on a small errand, with our friend William Lundy, who having heard of our being here, came about twenty miles to see us, and was at the meeting to-day. In the evening went to our friend Benjamin Willson’s — leaving the other Friends at Powell’s. John Elliott had been very poorly with the ague and fever — am fearful he will hardly be able to ride very soon, which is now a great trial to us, being very desirous to move towards home. Having had the two public meetings above mentioned, and visited most of the families and Friends in this country, to wit, Asa Schooley, Joseph Havens, Obadiah Dennis, Abraham Webster, John Cutler, John Hill, Benjamin Hill, Jeremiah Moore, (Abraham Laing, and Benjamin Canby, single men) John Taylor, Joshua Gillam, Joseph Marsh, Adam Burwell, Daniel Pound, William Lundy, Thomas Rice,
We now began to prepare to leave this part of the country. This morning they came to me at Benjamin Willson’s. Jasper Parrish we hear is very poorly at the landing, not able to return. We felt loth to leave him, but understanding generally Chapin, with whom he has his home, is expected to be here in a week, we were the more easy to leave him. John Elliott now bravely, though weak, seems very willing to move forward. We waited this morning for Abraham Laing, a young man who is going to the States, and is very desirous of our company. Then went to Powell’s, and thence to Windecker’s, the ferryman, where Abraham Laing came to us — we crossed over and went three miles to Cornelius Winney’s, at Buffalo creek. Here we stayed, as there is no house between this and the Genesee, which is called seventy-five miles.

We made out to get a fire kindled, which was a comfort to us; but we got very wet. The wind being high, several trees fell near us, which was somewhat alarming. The gust held about two hours, and then cleared up with bright starlight the remainder of the night. We all lay before the fire, in the best manner we could, in our wet situation, got some sleep, but were some what afflicted with the musketoes. On the whole, we thought ourselves much favoured.
We were up early, looked out for our horses, put on our kettle, and made a good dish of chocolate, wherein our friend John Parrish, was principal director — then set out and rode about thirty-five miles to the Genesee river, which we crossed by fording, and put up at John Gilbert Berry's, where we were comfortably entertained. After writing letters to general Chapin at Canandaigua, captain Bunbury at Niagara, and captain Hendricks, a chief among the Five Nations, we rode sixteen miles to James Miller's, superintendent of Williamsburgh farm, where we put up for the night, there being no place for lodging short of forty miles further. Among the many Indians resorting about Berry's, we saw a woman, said to be a hundred years old. In conversation with her, and admiring her grey hair, she assigned as a reason for her long life, that she was always kind and good, and against all quarrels; therefore God had spared her to see the sun a long time; pointing up to it. This morning we took a wrong road and had to return, by which we lost ten miles, so that we were not able to reach Bath, and lodged at the same old Indian cabin we were in going up in the spring, eleven miles short of the place we aimed at. We struck up a fire and slept pretty comfortably. We rode to Bath, and late in the evening got to colonel Lindley's, where we put up, having rode about forty miles. We were up early, proposing to reach the Block-house, distant about forty miles, but having our young friend Abraham Laing in company, with a poor little horse that tired on the way, our pro-
gress was retarded, so that we were benighted in very dark thick woods, and were obliged to alight. There, tying up our horses to they trees, with much difficulty we kindled a fire, and lay on the ground, which, with our clothes, were wet with rain. We kept up our fire, got a little sleep, wishing for day, and were glad when it appeared. We left Abraham Laing with his tired horses about eight miles back, where there is a small cabin in the woods. rode two miles to the Block-house, where we took breakfast, and gave our horses as much oats as we thought would be useful. Being thus refreshed, we set out, leaving Abraham Laing to come on as well as he could, in hopes that he may overtake us at Muncy. We rode seventeen miles to James Kyle's, and dined — thence fourteen miles to our friend Samuel Harris's, at Loyalsock, where John Parrish and myself lodged, leaving Jacob Lindley and John Elliott five miles back to get their horses shod. — Here we heard of great sickness in Philadelphia. rode two miles to the Block-house, where we took breakfast, and gave our horses as much oats as we thought would be useful. 7th. Mounted our horses before sun-rise, and rode two miles to the Block-house, where we took breakfast, and gave our horses as much oats as we thought would be useful. Being thus refreshed, we set out, leaving Abraham Laing to come on as well as he could, in hopes that he may overtake us at Muncy. 8th. First of the week. After breakfast, Jacob Lindley and John Elliott came up, and we went to Muncy meeting. Here we met with a number of our dear friends. This seemed very pleasant, and we had a solid, favoured time together. After which we went to our friend Samuel Wallace's and dined, then disposed of ourselves in several places to lodge. I went to Henry Parker's. We all felt a little of the effects, of lying in the damp woods in our wet clothes, and hard travelling for two days past, with rough roads, and crossing many creeks; one called Trout run, we crossed thirty times, and Lycoming creek seven times — with several large mountains, ytf
one of which was a part of the Alleghany. The sickness in Philadelphia confirmed in every place. Not feeling quite clear of this neighborhood, we held another meeting at Muncy meeting house, which was larger than yesterday, and much favoured. After dinner, went back six miles to Samuel Harris's, over the very large and rapid creek called Loyalsock. Here we had a large and satisfactory meeting. Most of our company returned, but I stayed here.

10th. Our friend S. H., an ancient man, has lain poorly for some time, and not likely to continue long. He seems quiet and calm, and told me this morning, he felt bravely refreshed, and much satisfied with the meeting and the company of his friends. I took a solemn leave of him and his family, and proceeded to Wallace's. We then all set out together, and rode to William Ellis's, where we settled the running accounts we had among ourselves. Our friend Jacob Lindley concluded here to leave us, and proceed home by way of Harrisburgh. We then went on, having Joseph Carpenter for a guide, eighteen miles toward Catawissa, and put up at our friend John Eves's, at Fishing creek, where we were kindly entertained.

11th. Here we had a meeting with a few Friends and divers of their neighbours, in a school house, to a good degree of satisfaction and comfort. Set out in company with Isaac James, brother John, in Philadelphia, and rode about twelve miles to Catawissa, crossing the north-east branch of the Susquehanna, and put up at our friend John Lloyd's. Here is a small town of about thirty buildings. I lodged at James Watson's, Parrish at John Lloyd's, yf
poorly, John Elliott stopped about eight miles short of this, at John Willson's. 12th. John Elliott came to us this morning. On his way he called to see an ancient Friend, now in the ninety-seventh year of her age. We had no public meeting here, but visited most of the families of Friends in town, wherein our friend Par- rish had good service, and was much favoured. In the afternoon we rode about nine miles to Roaring creek. This part of the country is hilly and mountainous, the valleys interspersed with good farms. Many Friends are settled hereabouts. Lodged at Moses Starr's. 13th. Rode twenty-six miles to Cold Run, and put up at Samuel Webb's, having crossed Little Mountain, Mahony, Broad, Locust, and Tuscarora mountains. Great part of the way very rough and stony. 14th. Set out and rode seven miles to Richard Stephens's — thence to Harkerstown. We here met with our friend Mordecai Lee, who had heard of our coming, and came to meet us. We went home with him. 15th. First of the week. Joseph Wright, living in one part of the house with his family, has lately been afflicted with the bloody flux, by which he had lost three children. Divers Friends came here to see us, viz. John Starr, Thomas Wright, Levi Pil- kington, &c. We all attended their meeting at Maiden Creek — and after dinner proceeded nine miles to Reading, where we put up at Samuel Jackson's. — The sickness, and distress in consequence thereof, we still hear confirmed, and much talked of, still raging to a great degree in Philadelphia — which, I

Our friend ytf John Elliott left Johnytf Parrish and myself here, proposing to ride into town thisytf evening to his family. ytf ytf with a cold, and very hoarse; butytf through favour, this morning, feel some better. At the same time I set out withytf my friend Joseph Potts, and rode nine mileytf to German-town. rather unfavorable to the sick in the city, where
deaths and burials are frequent through the day. —
ytf Here I met with my friend Sarah Lundy, whoytf is
on her way to the Yearly Meeting, and a proposed
visit to the Southern States. Also, again met with
my dear friend, William Savery, who came in last
evening, hisytf wife being here, and having taken
lodgings at Casparytf Haines's. We were all together
at their preparative meeting, where divers weighty
ytf testimonies were delivered by Sarah Lundy ytf and
others; and solemn supplication by Williamytf Savery.

Yearlyytf Meeting, it was exceedingly trying to many
Friends, onytf account of the prevailing and mortal
disorder raging in the city, where itytf is said from a
hundred to a hundred and fifty of a day, have been
ytf taken to their graves. I was much exercised in
mind on that account, beingyet poorly with my
cold, which 1 now apprehend to be what is common-
lytf called the influenza; — however, on the whole, I
thought I felt most easyytf to go forward, and rode
into Philadelphia, attended the meeting at Fourth
street, whichytf was a solid, favoured time, though
very small. There were some Friends fromytf every
Quarter, though many of the representatives were
absent. I thinkytf from one meeting there was but
one answered. The number on the women'sytf side
of the house, in the whole, twenty-four. I dined at
ytf Thomas Wistar's, and towards evening returnedytf to
ytf
ytf Germantown, feeling myself very poorly withytf great
debility. While in the city, I had occasion to pass
by Friends'ytf burial ground, the Potter's field-, and
ytf several others. The prospect was awful and alarming,
to behold the manyytf new graves, and others digging,
with the hearses standing, and someytf coming
and going — most of which were attended by the
black people.ytf whom it is said the disorder has not
reached. This is a token of mercy,ytf mixed with
judgment, both to them and the whites, they being
theytf principal nurses and carriers of the dead. I am
hardly able to describe myytf feelings on the present
occasion, believing it to be all in wisdom, andytf hoping
it may have a tendency to bring the lofty from their
seats, andytf beget greater humility than has of latter
time appeared in that highlyytf favoured city. ytf ytf ytf

did not go out to meeting, but kept in my quar-
ters,ytf where I was very kindly and tenderly treated,
wanting for nothing the houseytf could afford to make
me comfortable. Johnytf Johnson and his wife Rachel,

On the other side of this Bay of Fundy, there was not anything oppressed my mind with more sadness than the manner, the former inhabitants of the Place, which were called Neutral, were forced away from their improved Farms and Estates in this Part of Nova Scotia, by those acting under British Authority, and British Subjects coming in to inherit their labor. I mention my Sentiments freely concerning such injustice taking place, & I am willing to leave it, 

As we had to wait for a passage from hence to Bever Harbour, visits of a few families here, being kindly received by the people where we came.

This Morning, we went on board of a Boat with four Oars, and came about 20 Miles to Digget Harbour; here we lodged at one Trencher, entertained us kindly & refused taking pay for it: Being yet only about half way to Bever Harbour, we went on board early next morning, and coming thither, had a meeting in that place in the afternoon, which was a solid season. Likewise the next day we had another meeting, also solid.

We proceeded then about 20 miles to Peggysquddy, at the mouth of the river Saint Croix; and from thence the next day by Water to Machias in the province of Maine: Here, all the members of our Society residing in the place, we had two large and satisfactory meetings. They people desired us to stay longer, and have more. But I have found it safer to leave the People hungry, rather than to stay to make additions. I wish all who travel on Truth's Account to guard against the Activity of the Creature, lest a good savour be not left among strangers.

On the other side of this Bay of Fundy, there was not anything oppressed my mind with more sadness than the manner, the former French inhabitants of the Place, which were called Neutrals, were forced away from their improved Farms and Estates in this Part of Nova Scotia, by those acting under British Authority, and British Subjects coming in to inherit the fruits of their Labor. I mention'd my Sentiments freely concerning such injustice taking place, & I am willing to leave it. As we had to wait for a passage from hence to Bever Harbour, visited a few families here, being kindly received by the people where we came. Having proceeded a few miles to Dipper-harbour, here we lodged one Frenches, who to entertain us kindly & refused taking pay for it: Being yet only about half Way to Bever-Harbour, we went on board early next morning, and coming thither, had a meeting in that place in the afternoon, which was a solid season; Likewise the next day we had another meeting, also solid. Coming thither, had a meeting in that place in the afternoon, which was a solid season; Likewise the next day we had another meeting, also solid. We proceeded then about 20 Miles to Passamaquady, at the mouth of the river Saint Croix; and from thence the next day also by Water to Machias in the province of Maine: Here, altho' no member of our Society resided in the place, we had two large and satisfactory Meetings. They people desired us to stay longer, and have more: But I have found it safest to leave the People hungring, rather than to stay to make additions. I wish all who travel on Truth's account to guard against the Activity of the Creature, lest a good savour be not left among Strangers. Being...
Being kindly supplied with horses, & a man to take them back, we went on to Pleasant River, about 20 miles toward Penobscot; & thence to the River, there appears to be much Openly among the inhabitants of this Eastern Country towards his friends: I thought it looked as tho' the fields were white unto Harvest; & that many were weary of their labours, we had a small solid meeting here the next day: After which we crossed the River to Richard Coffin's.

Living horses & a man to take them back, we came about 30 miles to French-man's Bay, and the next day we reached to the house of Paul Dudley, who was a very kind man: He offered his Boat and hands to take us near 20 miles: It being rainy we tarried here till the day following; and then were taken down Frenchman's Bay to the Blue Hills. On the way to Penobscot we had a pleasant Passage; and I had to admire the goodness of the Lord, in opening & preparing my way. Bless'd be his excellent Name, in my soul, by tremblingly, in awful fear and love. — The next day we hired horses to cross a neck of Land about six miles; and then went by water to Penobscot. Feeling poor in mind, and hearing of an opportunity to go on further by water, we had like to have gone. But perceiving an Opening unexpectedly for a meeting here next day, we concluded to stay, having one in the morning, and also another in the afternoon, & both profitable, I hope. The people's behaviour was commendable: I was comforted, and some benefit perhaps was received by individuals among us.

After leaving Penobscot we crossed the bay about 14 miles to Duck trap, and had a small solid meeting among the People there that afternoon; they behaved well. The next day we hired a man and horses to take us to Camden on Penobscot bay; and on the day following had a small 3d meeting there, which I thought was favorable. Here I bought a horse, bridle and saddle and rode to Broad Bay, where we had a satisfactory meeting at the widow Chapman's house, in which deep impressions were made on some minds, and we were brought near to each other, although outwardly strangers. In the afternoon we proceeded about 15 miles to the Widow Kennedy's near Sheepdog Ferry; and on the day following reached to our friend Jeremiah Hacker's at Durham; from hence proceeding to Falmouth, in company of several friends, on first-day were at meeting here, which was, as I thought, poor and dull: The weather was warm and riding thus on horseback was trying to my shattend condition; yet I am favored: All praise belongs to the Lord; I have been fully convinced in this my pilgrim-like journey for the good of souls, that nothing belongs to man, nor the contrivance of men in putting forward the Lord's work: From Falmouth we came to Sandwich, where we had two or 3 meetings, one of which was publick; The other with our friend selected: These were exercising; but I believe they ended well. Hard labour and much poverty seem to be my allotments. But let me not murmur.

We had two Meetings in a good degree solid; the other in a Baptist Meeting house, large, but interrupted by the people's going out and in: It is often so, when we consent to hold meetings in their houses which belong to People of other Societies. I believe we ought carefully to feel our way, even when their houses are offered freely. Here met with my friend Henry Hull from Nine Partners. suffered Loss by a friend's speaking rather too much about his own Conviction: My Mind was distressed hereby; And my desires are that Friends of the Ministry may be well guarded against branching out improperly, when silence might be more useful near a Meeting's Conclusion. We now set out for Danby, through a Mountainous Country, which we reached the next day. My journey since I left my habitation, I think amounts to near two thousand Miles by land and Water till came to this place; And I am thankful that I feel in good measure comfortable after the Fatigue which has attended such a long Travel. I thought the people's minds were too much outward, and not attentive to the true foundation. The next day had a favoured meeting at Mount Holly, where no Meeting of Friends was ever held.

The people sat commendably; several of them invited us to their houses. But believing myself clear, I chose rather to leave them in the hand of the Lord. Near at Walling’s valley, a little village, we had a large & good meeting, where there had not been any held by friends before. A Baptist minister was present, who seemed to be tendered. The height of the mountains here seemed awful, exceeding any that I had seen. Some people suppose that much more rain and snow fall on them than doth in a level country. Oh! the sympathy I have perceived for those who dwell in these rough places, many of them in poor cottage, covered with Bark, or straw. I was at Darby meeting again, it being the first of the week, and seemed to be a dull season; yet some ability to labour amongst them was afforded; several things opened in my mind concerning the free use of distilled spirits, India Tea, and tobacco, and I had to tell the people. I was apprehensive these things were not introduced amongst us by the dictates of Truth, but that they rather came in by stealth, as a thief in the night, and stand behind the curtain of custom (as many other evils do) causing weakness amongst us a people. Leaving Danby I came to Easton; and on the 16th, crossed the North River to the week day meeting at Saratoga, which was a trying season. —

The day following I went back to their Monthly meeting at Easton; at the close where the Shutter were opened at my request, and I was exercised in close labour with Friends of both sexes on the subject of a reformation, having to touch on the particular things which, as above, were mentioned at Danby: Also on the harm arising from extensive trade, with that of declining to use our own country produce, advising that children be brought up to industry.

Travelling to White Creek, the following day I had a large and solid meeting there; after which an aged man came to me, and said, 'I had thought much of being a Quaker, yet had been afraid to join them, but this day the Truth had been declared to his heart,' and at parting he expressed his wish that the Lord might prosper me in my work. —

The following first I was Pittstown meeting, the first which was held in their new meeting house, being a large gathering. I believe the Truth was in Dominion among us, and it's mid-summer, to see such a mixed multitude, it so still is sold.

23rd. The next Meeting was among friends of Jacob and Peter, large and solid. At the close of the public sitting, I had an opportunity with friends by themselves; these way opened for close labour respecting the necessity of reformation, as things amongst them were much out of order, and too much lukewarmness prevalent. I was also at their monthly meeting next day, where I was engaged to labour with both sexes, on the necessity of reformation, and had to touch on the same subjects as in other places, concerning Foreign Trade, Rum, Indigo, Tea, Tobacco, exhorting to that of more true, moderation, temperance with the life of our own country Produce.

This Morning I visited a settlement of the People called Shakers, who seemed to receive me kindly, yet were much reserved. I informed them I had felt my mind drawn to visit them in love, and if they were free to sit down with us, if anything arose in any of our minds, we might speak freely; adding also that I had often heard of them, but did not see any of their sort before now. One of them then said, he expected something reported of them might be true, and some false. He then leaving us, I suppose he went to consult with his Brethren, yet soon returning, he asked if I was born in this Country, and of what profession I was. I told him I was one of the People called Quakers, and showed my certificate. After he read it, he asked if he might shew it to some in the next room, which I allowed him to do. He then went in again, where, by that time, I suppose many were collected in council; I heard them read over my certificate, while after some time was brought back, and I was told they found I was an approved minister of that Society. It was on a long journey; I informed him I was on my return; and if he had sound. I should be willing to know something of their Principles. the cross: This, he said, had crucified every fleshly lust, and given them power to resist the tempter. That also, they held that it was right to marry, but that the world was wrong, and said in Sin and Error. The second reason was, to hastily act, and act confident in supposing their Quakers to be right, that they might take up the cross to last till death, and go beyond others, in self-mutilation, &c.

With respect to their worship, he informed me they came together every evening, took a solid pause, and if the elders feel any thing so arise with weight, they were permitted to speak; they also sung the songs of Solomon, use dancing &c. I informed him of our belief concerning the benefit of silence, and of Spiritual Worship; and advised him to beware of being over-confident in supposing they had witnessed greater attainments than others. He told me they believed George Fox to have been a good man, until he mixed with the world, that then he fell away, and there had been a falling away among us till this time; and we had lost our gift of discerning and had in our church many defective members. But they (the Shakers) he said, had that gift, and sought out some of the most-deep and hidden minds: and I let him know I feared they were mistaken, not being so whole as they thought themselves to be. This man appeared to be sober and well-behaved. He said they all lived in love, and in one family, and portioned out each one's labour, according to their ability. They have many mechanics, and some are appointed to inspect the work. They appear to be much united, do not act without consulting together, and move as in a body. This man told me further, they did not receive any as members if they had wronged any person, until they had returned four-fold. And when any one joined them, his property is put into public stock, if he should leave

We visited another settlement of those called Shakers. After a
solid conference we were permitted to see the women, who appeared
plain and sober. One of them, an ancient woman, spoke in a free
and friendly way, asking several questions. She seemed well satisfied
with my answers, and invited me to come again. Their head-dress was
much in the uniform; and I had some satisfaction in the visit. I found
they were too much unacquainted with the Cross of Christ; yet they
speak of living under the Cross.

14th. Had a large and satisfactory meeting at Tyngsborough; after which
I was in conference with a committee from East Housatonic Meeting,
in respect to holding a meeting at this place, as the number is small,
and the state of things but low. The next day travelled on
a rough road through a mountainous country to Charles Richards's
house at Goshen; and the next day a large and solid meeting was
held there. It may be remarked the people in these parts are long in ga-
tering to a frame of worship. C. Richards seems to be a singular
man in almost all his conduct; and yet in the main, I esteemed
him honest-hearted. The day following in the afternoon, we
had a dull heavy meeting at a place called the Branch, and on the 8th
had one at New-Hillsford, which was low in the forepart; until some
gay people not of our persuasion came in, unto whom I believe
the Lord had regard, for ability was received to extend gospel labour
for their benefit; as a lukewarm slovenly spirit was to be felt

8th before they came in. This was the preparative meeting day at New Milford, but matters appeared to be in a low state. At the close of the first meeting, I felt a desire to have a meeting with the inhabitants of New Milford next day, which was united with on being mentioned, and the time and place proposed, and those gay people above hinted proposed to spread the notice.

5th — Agreeable to which proposal, a pretty large number assembled of those not of our society in a private house near the town, which was a favoured season, not soon to be forgotten. Going forward, I had a pretty large and satisfactory meeting at Friends Meeting-house in the Valley, so called. And next day at Peace Pond, I was at a small meeting where poverty was felt; yet I had some labour.

12th — Next I attended the monthly meeting at Oblong, which was an exercising time; I heard barrenness prevailed; the crowding cases of the world; the deceitfulness of Riches choking the good seed. I had some close labor which appeared to be well taken. The day following I attended the select meeting at the same place, which was dull.

14th — I was to Nine Partners to their monthly meeting, which was very large, and somewhat lively. I thought I perceived some ability to labour satisfactorily. that he was convinced of the truth, on hearing some little children using the plain language of thee, to one another, and they appearing so lamblike, he believed it was Truth's language. I thought from this instance, how much effect simple Plainness hath, even when observable in children; and how much more if grown people & Parents were properly concerned to live up to the pure inward principle of Truth? We should then be teachers, instead of stumbling blocks to honest enquirers; and like the Salt of the earth, the savour whose worth would be perceived for miles round, in a neighborhood where it was retained.

28th. I attended the Quarterly Meeting at Olong; it was very large, and comfortable to my mind. Gospel Truths were declared to the tendering of many hearts. The next day the Youth Meeting was said to be the largest known in this place; a solid and favorable season I believe. The people sat quiet, although crowded, and I sat in silence, being comforted in Christ our Lord. The day following I travelled towards Nine Partners again, and on the way, stopped at the Ridge Meeting held the 1st. of the 11th month, which was very large, solemnity prevailing; so many had to stand up for want of seats. The day before I stayed at a Friends house, whose wife was in a weak state of health; she appeared to be of an insensate spirit, and expected much satisfaction in the Spirit.

In the evening, now, to go towards Hartford in Connecticut; I travelled about 20 miles, and in the afternoon had a meeting near Goshen in a Baptist meeting-house; it was remarked that the meeting was solid & quiet. Coming to Hartford, where a number dwelt who by conviction have of late been joined to our Society, I attended their meeting on first day forenoon; also in the afternoon when notice was further spread, we had a large and favoured meeting; but it was somewhat injured by the public appearance of one towards whom care was directed.

In the evening also we had the largest meeting ever seen at this place; and tho' the crowding of the people was some hindrance to its settlement in quiescence, yet the reasoning virtue of Truth was perceived by many; inasmuch, that near a hundred persons after the meeting concluded, were loth to depart from the house; I felt my mind engaged in exercise on their account; but went to lay down that I might rest a little.

After they had conferred together, a solid young man came, and told me they desired another opportunity, as the evening meeting was so crowded. This proved to be a time of favour; To shew them that I was no Impostor I caused my certificate to be read near the close; This lasted till near midnight; such a solemnity prevailed, that it seemed not easy to separate.

I do believe the Truth came into dominion this evening; May the Lord be
hurt by too much preaching: It is necessary a deep travail of spirit, should take place for the arising of that Spirit and life which gives victory over lightness and airy dispositions; without which preaching is vain.

9th: Feeling a draught in my mind to go and visit a clergyman, who had shown some bitterness towards friends, and although some thought it was likely he would treat me with contempt, I was most easily to be accompanied by two friends. When we went to him, he treated us friendly beyond our expectation, saying he had attended at one meeting, and was well satisfied with what I said. He replied, if thou wouldst lay aside forms and ceremonies, I think we shall be likely to agree in the parts which are essential. He then said he believed the Scripture to be the only rule of faith and practice, and that revelation had ceased. I desired to open my sentiments to him in freedom, that the Scriptures applied to be a sealed book, and the true meaning of many parts not to be obtained, except under the assistance of the same Spirit which gave them forth. That the divine principle of light and grace which we preach up, and testify unto, is that which, if attended to, brings to the knowledge of God. That the Spirit of Wisdom which inspired the Penman who wrote the Scriptures, is surely to be preferred before that which was written under its influence. He did not say he believed in free grace yet he continued to urge the Scriptures being the only Rule, other conversations followed, yet it appeared he would not yield to any sentiment different from what he had been accustomed to endeavour to uphold, according to their creed. I let him know before we parted, that I thought he knew better than he spoke.

themselves to my comfort and theirs. I saw there was great need of care in this place, as they are but newly converted, and their number small. They held meetings under the care of Obiong monthly meeting in the government of New York. This appears to have been a dark place of formal profession of religion. Travelling homewards about 30 miles, I had in the Evening at a
Friends house some edifying conversation: I fear it is too often other-

afflicting Meetings I had for some time: It was near the close
of a season of Mortality wherewith that city had been visited; which
should have produced humility, turning peoples' minds from the pursuit of
earthly riches, to that treasure which is durable: But to my grief, I was
afraid the inhabitants (when the late rody was withdrawn) too many were
turning, like the Sow, to that of wallowing in the mire again.

In about three days after this time I reached to my own habitation again after a journey which took up near eight months, and in which I had to travel about 4,000 miles, and have now cause to praise & magnify the Name of the Lord, who in a marvellous manner prepared my way, & carried me through; and now vouchsafe the sense of a reward which is sufficient for all my Trials & labours. a worldly spirit, to mention its weakening effects in leading the vain customs of the world in dress &c. I was led on this occasion to speak plainly and closely urge my friends to a proper attention to this advice, with other matters recommended. It appeared evident to me, that giving way to fleshly ease, and a worldly spirit, was the ground cause of a defection in our society, a departure from that simplicity which the dictates of the blessed Truth, if strictly observed, would lead into. Some of the rich can scarcely bear this kind of doctrine, especially Parents; The Children sometimes appear most tender. I had also to express my fears respecting the dangerous consequence of friends mixing with others in promoting a School at Haddonfield for instructing Youth in the French Language, as it might be a snare to entangle some of the dear youth, to expose them to the company of those of a loose conduct &c. This some seemed to disapprove of my freedom in this respect; several both old and young united with my sentiments.

12th. I was at Woodberry monthly meeting, where a worldly spirit was again treated on, with its effects. I opened my sentiments on what relates to extortion, and had to advise my friends not to seek the largest prices when they were about to sell meat or other produce, especially to those in low circumstances. This appeared to be a good time, and I was afraid my friends in this place had lost ground. — — —

Minister, it came into my mind that in a season of drought, we looked to the clouds for rain; sometimes many clouds produce but little rain, so when divers preachers are in the gallery, the minds of the people turned towards them & not to the bishop of clouds, a disappointment often happens. 

4th. I have done no good thing.

5th. For several days after this, I was closely engaged in visiting the sick, and in assisting, and pleading the cause of the poor, to my comfort, and I hope, to their benefit.

2nd mo. 1st. I was at Burlington Meeting & had some service both amongst men, friends & the women; tho' it seemed hard work, because of lukewarmness, and I feared the world was likely to gain by it.

2nd. Attending also the 2nd. Meeting at Chesterfield, it appeared to be a low season, & part of the time unprofitably spent. Some who had more of the form than substance urging sentiments to carry their Point, though it was distressing to some younger persons, & so it was to me.

5th. Springfield monthly meeting held to day, I thought was a more favor'd time in the management of their business; Friends seemed to be united, the youth sat solidly, which was pleasant to observe.

I had a comforting time in a family yesterday evening, the children appeared in a good degree of innocence. (C. Newbold.)

10th. At the monthly meeting of Mount-holly, I thought matter were in a low condition, scarcely managed to the honour of Truth; as life seemed wanting. In the evening I visited one who had been an old professor, hurt by taking strong drinks to excess; dealt closely with him, as I thought him to be a deceiver.

1st month.

I visited a family of Methodists, who seemed well disposed; they were tender & expressed satisfaction.

4th. I likewise attended Everham meeting, and was afraid friends were rather on the decline, as the ground work of religion. The spirit of the world often gets too much place in the hearts of professors, and then the good seed is choked, so that it cannot flourish to the honour of the greatest benefactress.

7th. I felt much disposed when I came home, but on visiting some of the poor, & those in affliction, I was comforted, and had cause to bless & praise the name of Israel's God.

10th. At our monthly meeting I opened my concern to visit the families belonging to our meeting of Newtown, and to hold a few meetings near the river side, which my friends united with. I was induced to express my concern also, about so great a company of people coming to our Quarterly Meeting, & the disorders often seen among them.

14th. On first day we had a favouring meeting at Newtown: a searching testimony was delivered by our friend S. S. Many hearts both of young and old were tendered.

16th. I thought I had some clear openings respecting the manner of holding our meetings, for discipline, in the authority of Truth.

18th. Being at a meeting held in a school house near the river, I was concerned on the subject of disorderliness, which is apt to overtake friends both men and women, in a religious sense, where the spirit of the world is allowed to gain place. I saw it hinders the growth of the blessed Truth!

are in a good degree tender & sweet - spirited. One of them. I thought 21. had too much confidence in the doctor, which gave me concern. Doctor we see are often men of loose principles, not fit for religious minds to place reliance on. On further visits to some untrained circumstances, I find comfort; I am often tried with great poverty of spirit. 5th month.

13. I have for near two weeks been engaged in visiting the families mentioned before to my satisfaction; many of the visited also express the same; more friends are observed to attend meetings than were seen a little past, or before this visit. 14th I thought our monthly meeting at this time was pretty well conducted.

15. I attended the meeting at Moorestown, & sat with a committee who had under consideration the subject, mentioned in yearly meeting minutes relative to a worldly spirit &c. I had some close labour touch this "root of all evil," the love of money; it seems to go hand with some old folks & those who are eagerly pursuing outward wealth. So secure were some, they were ready to say, "Touch me not!" But I told them, "Joseph, or little David, was yet alive; therefore let no man's heart fail him." The next day at Upper-Susquehanna meeting, I had to speak of dangers that may happen, if the watchmen fall asleep, and give not the alarm at the approach of the enemy. It appeared that now a worldly spirit was advancing into our society, & for want of faithful, wakeful watchmen, many

Doctors we see are often men of loose principles, not fit for religious Minds to place reliance on. On further visits to some straitened Circumstances, I find Comfort: I am often tried with great poverty of Spirit, I therefore own those as my brethren and sisters in tribulation, I find comfort; many of the visited also express the same: more friends are observed to attend Meetings than were seen a while past, before I thought our Monthly Meeting was pretty well conducted. who had under Consideration the subjects mention'd in the Yearly Meetings minutes relative to a worldly Spirit &c: I had some close labour touching this root of all evil, the Love of money; It seems to go hard with some old folks, & those who are eagerly pursuing outward wealth: So secure were some, they were ready to say, "Touch me not:" But I told them, Joseph, little David, was yet alive; Therefore let no man's heart fail him: The next day at Upper-Evesham Meeting, I had to speak of dangers that may happen, if the Watchmen fall asleep, and give not the alarm at the approach of the enemy. It appear'd that worldly spirit was advancing fast into our Society, & for want of faithful, wakeful, Watchmen, many
likely to be
many with their wives and their daughters, are taken captive;
the rich are getting more, but the poor are oppressed; and I be-
lieved the time loudly called for an alteration, and that now ale
and corn sold for so high a price, and other things high also, Friend
example in moderation might be loud preaching; even if we
could submit to supply the poor at one third lower than the
highest price; what a pleasant savour it would yield in the
country round us. These sentiments it seemed right for me to
press home to my friends closely.

Attending Huddersfield meeting, I had to mention the manner
in which we sold the ox and the as, which are bought with
our money, & there ought to be subject under us, to come or go at
our bidding: But ourselves, who are bought at a higher price, by
the Saviour of the world, do not obey him as our Great Master.
nor keep his holy law: Thus, are we not more stubborn than the brutes?
If the brutes obey not, we give them stripes: And must not the
Lord chastise us for disobedience? We may consider for our-
seles: As we whip harder for the second offence, may we not look
for the same measure ourselves, if still disobedient? As the inhabi-
tants of this place have been lately visited by the rod of sickness,
and many numbered to the silent grave, of different ages & sexes,
and have not come been raised as from the grave, and spared longer,
who have made promises of amendment in their affliction, yet have
not kept them? Will not the Lord visit again, by sword, famine

3d. I attended a meeting held at School-House over Cooper's Creek, a large and solid meeting, which ended well. On the 5th, I had a meeting at a School House near Gloucester, not very large on account of a Burial, & visited four families afternoon; and the next day five families, which closed our visit to families of Newtown Meeting, about 90, to our comfort, & the satisfaction of those visited for ought that appeared. I have visited several other rich persons, not without out a reward, & had two pretty large Meetings in School-Houses to good satisfaction.

11th. At our monthly meeting I laid before my friends the continuance of a concern to pay another visit within the Governments of New-York & Canada, which referred to the next meeting.

13th. Visiting sick people, of whom there are many, and some die at short warning, to me the season seems alarming, & I fear hardness of heart increaseth with extortion in high prices, as though there would not be a living for the poor. Oh the bloody spirit which prevails, will not the Lord be angry, & stretch forth his hand more severely?

15th. Again, I have visited several who were under deep bodily infirmity, the state of whom caused serious contemplation concerning some circumstances: Some falling out with one another by the way, contending about things which appear to be of so little worth in a dying hour, that there is no name of small enough value to call them by. Oh that all would try to be rich in good works!

19th. I thought I saw the enemy had made an inroad amongst us by stirring up discord, and setting friends at variance with one another in strong parties, both pleading they were right, when it appeared to me, both were wrong, and gave way too much to thinking evil. For this I was grieved, and laboured with both, to be at peace. The love of the word was the beginning of this. When that prevails, such are its fruits.

19th. I have been visiting the sick; was humbled under a sense of the speedy calls from time to eternity, in this day of too general depravity.

Many trying days I have to pass through; perhaps all for my good; these are not joyous, but if they the better prepare me for the Lord's work, his will will be done. At Pikegrove meeting the 21st, I was enabled to do what I believed to be my part faithfully. The same day was at a place where a marriage dinner was soon to be provided for my young son; I had to open my mind on the subject of such entertainment freely & with some weight; impressing the necessity of true moderation, and advising against what has crept in relating to the ceremony of particular waiting on the Bride & Groom so called, my advice had a place in the mind of those concerned. The company at the marriage was small, I attended, and was pleased to see a good degree of right order observed. Much love and kindness & conduct at marriages might be prevented by timely care which should be exerted by friends rightly concerned, whether older or younger.

25th. For some days sorrow, trial, and grievous temptations have attended me. Yet I believe I had some service amongst the poor, afflicted widows and fatherless children in and near Salem, whom I have visited.

At Salem 4th meeting next day, I had much labour both in men and women's department to good satisfaction.

1796, 2d month.

I have had to review the Vanity which prevails with the young people of our time, and the Avarice & Extortion that seem visible among older ones, which produce mournful feelings. Nor has it felt pleasant to my exercised mind to observe so much of the free use of Silk in clothing, in our Country, which is so plentiful for wool and flax; might not these seem to be sufficient on many occasions, without showing the refine of own much delicacy. I have been at Greenwich and Woolbury Meeting, where Poverty was perceived. I fear the Truth is at low ebb among too many of us.

5th. I have apprehended the hearts of many professors resemble the stormy ground, so that altho' favour to them is renewed, for want of depth in root they fall into old customs again.

Close work on answering the Queries in our Reparative Meeting; I feared that evasive answers to them would be likely to become a snare.

On first day I was at a pretty large meeting there; and at Trenton another in the afternoon. The last especially was a favoured season. I was now a little revived, believing I was in my proper place thus far. The next day at Lumberton, where is no religious meeting held, nor meeting house of any sort. to take leave of me, with tears trickling down, my tears also were mingled with theirs. It truly was a comfortable time. A more solid meeting or greater attention, I think I never saw before at any time or place, than what was observable here on this occasion.

Next day, travelling to Baha-way, I thought none had to feel more of inward poverty than poor me, yet as the Lord is not wanting to abut his devoted ones in the needful time, there is no cause for murmuring.

19. At a kind friend's house, there was sent in the afternoon a fine riding waggon with nice horses, for that friend's wife and me to ride in to visit her mother and some others. I told her I had no objection to going, yet was not free to ride in that carriage, nor with such horses, but I could go on foot, and she might ride in it, as a late rain caused the roads to be wet & unpleasant walking.

This was a trial to us both, as she appeared to be a good spirited woman, but I believe it best for me to hold forth my testimony for simplicity and lowly mindedness. 19. I was at Baha-way monthly meeting, and at an evening meeting appointed by my Friend J. S. held here; These seemed to be laborious sessions though attended by many friends on their way to yearly meeting at N.Y.

Reaching to that city next day, I was somewhat comforted, many friends kindly came to see me.

The Yearly Meeting of Ministers and Elders began, at 10.

were our Friends John Wigham and Martha Booth from Europe, with others out of other Parts; a second sitting thereof was in the afternoon, low times to me. I thought, many of us were got into a state of easy indulgence in many things, and are not far to be removed from Pride of Ease: I tried at it a little, yet not to much purpose. I hinted that the benefit of well ordering of this large Yearly meeting would much depend on the wise Conduct of those in high stations, guiding well their own Example, conversation, and then watching over younger People carefully, checking their going on formal visits from house to house; that if favoured to receive a little good, they might not lose it in vanities, or learn bad fashions, or unprofitable customs by getting into company, and indulging Vanities, so as to be in danger of returning from such a solemnity worse than when they came to it. That of sitting up late in the evenings, and laying in bed late in the mornings, I had to mention my belief, it was unprofitable for Body and Soul. I thought this kind of Doctrine seemed rather hard or close for me to deliver, among Brethren and Sisters of high rank in a large City; and though lately visited with alarming mortality, I fear too many are not enough humbly. 23: The meeting of Bufinsh began, which in most of its sitting, second times of exercise, the stream being low as I thought: Members too generally talked more or less with a lordly spirit, know not the proper value of the precious Truth, so thus become captivated, barren, drossish.

At one setting of the Select Meeting, on 2d day morning, The truth appeared to have comfortable dominion; my mind in the liberty thereof was emboldened to inform my brethren and Sister of my exercise on observing a custom to prevail in the City which I thought was not right; and I differed from all my friends in sentiment I hoped I might be excused; it was that of employing men to do women's work in houses, that I did not doubt there being women enough, healthy, & capable of business if their minds were applied thereto, to do all that was necessary in families; And as provisions were dear, and men's labour high rated, they had better be employed in the fields, or out door business than at women's work; If the young women were to be brought up in a course of family industry, and to rise early in the morning, I believed it might contribute to health, and tend to fit many of them better for business & the managing household affairs, if they should come to need that, than if brought up in an easy delicate manner; having seen some such in my time who have reduced to great hardship and unable then to minister to their own necessities, and perhaps there may be instances of this kind proceeding out of families where men had been employed to do women's work, and children indulged in a delicate idle life. The my testimony on this head seemed to go hard with some to whom it might seem applicable, yet I found it had the concurrence of many friends who expressed unity therewith. It was also proposed by one friend that a Minute of the substance of the concern be taken on their book which was agreed to. This was a memorable time, the Power of Truth in dominion, lofty Spirits chained down, the rich & great having to submit to the simple discipline prevalent in the present season.

1796. In a following sitting of Ministers & Elders the same concern was strengthened & friends in the city & country closely advised to attend to the contents of what was taken on minute at the former sitting. The Bow seemed (as I believed) to be at this season renewed & strengthened by the Lord's Power, in the hands of some little ones, who had to shoot their Arrows against the Queen of Pride. I didn't find my self clear without also hinting my exercise on the growing Custom of friends having fine Carpet, and flowery Things in their Rooms, which I believed were not bought into use by the dictates of simple Truth, and that a number of such matter might well be spared, and thus help might be administered towards warming and covering many of the Poor.

28th. The Yearly Meeting ended the 28th with a publick Meeting. I was exceedingly stripped that Evening, having to confess with the Prophet of OLD, I am a worm, and no man. So great was my poverty that I feared I should murmur, these seeming to be no sense of good left. But I tried to get into quietude, therein to know what further the Lord had for me to do. Next day being the first of the week, there were held 3 meetings in the City: The last of which was appointed for the Youth of all description; These were large and thought ended well, yet not so highly favoured as some have been.

Here I parted with my beloved Friends, J. Wigham and M. Bowly, each turning to our own Allotments in the Master's Coast, John, to Long-Island, Martha to the Northern Meetings in this Government, and I towards the Genesee Country & Upper Canada.

I went about 20 miles further to a friend's House, near the North River: and the next day, was at their week day meet at Stuyves, which was small, yet in measure favored: after which I visited an aged friend under bodily affliction, but in a heavenly frame of mind. The 3rd. I proceeded on my way, and came to Mr. Groves: had a
time in his family; several young women were there, & it was a very
satisfactory reason. I also visited an aged woman friend, of a heavenly
mind as I believed. I have to wait a little for a companion; feeling
inward Calmness. This I take to be a Divine Gift, to support a
tethering mind.

5th. I was the Creek Meeting (Nine partners), where strength was
given me to labour (I believe) to the honour of Truth, and my
own comfort; next day, my companion
coming, we rode to Little nine Partners, and the day after that
upon short notice, had a pretty large meeting, to good satisfac-
tion at Cateshil, amongst the Presbyterians.

8th. Crossing the North River here, we proceeded westward. Undoubtedly,
I felt myself as a Stranger in a strange Land; yet perceived a
little something which inwardly sweetend the mind: the next day,
we went much the same Course, thro' a Wilderness, where the
mountains were admirably high, which seemed awful; and trav-
elling was very difficult among Roots, Rocks and Mine. Sometimes we

seemed to be surrounded in such a manner with mountains, as though there would be no way; here it was hinted to mind, look not outwardly, but to the Lord, & the Path: I then felt more easy, scarcely daring for a while to raise my head, or look about me. The road also continued difficult the next day, but I was favoured with a sweet calm. I thought perhaps many of my friends were in another way toiling themselves, trying to get riches & leave their children rich, and I struggling along thus might might come to die outwardly poor: But my mind was touched on this wise: Thy Riches come another way; if thou art faithful, thy reward shall be sure, and sufficient. We crossed the River Susquehanna near Linndilly: Enquiring for a friend's house we had heard of; it being also near night, and receiving no account of him, it seemed a discouraging circumstance in a wilderness place. But going further on we obtained lodging; we were informed he lived about fifteen miles distant. The following day about noon we reached to Green Hall. Having now travelled near 160 miles, through a remarkable road for difficulties, I have no cause to murmur, feeling the Lord to be near as a hind master. On the 12th we had a meeting at this house, and in the afternoon another in a school-house, which were considerable gatherings, and might be called seasons wherein divine Goodness was dispensed. The solid & quiet sitting of the People, was comforting to me to behold. On the 13th had a Meeting at E. Smith's by the Linndilly River, among a People who were much unacquainted with friend. extortionate teacher, or Prior, to maintain, and a great scarcity of grain here. Some have been [they say] several days without bread, also some who went 20 miles to buy, & brought the corn home on their backs. We called at one place, where was a woman and three children besides one at her breast; whose husband was reeking bread. She said they had been two days without, and knew not when he would return. It was almost more than I could bear to hear; to observe the situation of these poor children. That called the house they sheltered in, was, a few logs put up, and brush thrown on the top. When it rained they suffered much, having to sit or sit the whole night, sometimes in the wet, and without fire.

14. Had a Meeting in a place called Shenang, at T. in a new barn of Dr. Steepen. The day following at the same place we had one with those who professed, or had a friendly education, which ended to my comfort and theirs also. We found them in a tried sort: some who had come hither to settle, appearing in manner friend-like, had conducted in a shameful, dishonest way, rather drunken, and dispositions of goods which were sent here damaged of small value, endeavoring to cheat, to take advantage of poor people &c.; such had left a stink behind them, and caused the way of truth to be evilly spoken of, to the grief of some tender-spirited little ones.

O the mischief and wrongs some traders are guilty of, no less whatever they may, who send into these new countries, old shop goods, not easily to be sold in more populous places; in this manner defrauding and oppressing poor people of new settlement; will not the cry of these corrupt deeds reach the ears of heaven's king, and call for a revenge on the workers of such iniquity. Having been an eye witness and mourner on these accounts, or having cause to believe the truth of such complaints, I think I shall not stand clear in my duty without making, and leaving remarks as things occur.

On first day the 19th, had a solid quiet meeting in the barn above mentioned, which I thought ended to the honour of truth. This was supposed to be the largest gathering ever known in these parts.

20th. Visited several families & had a meeting in St. Sleeper's Great Mill. Pretty large, but long in gathering, which hurt the service; it ended well. The people for quiet orderly sitting were remarkable.

21st. We went to see some families, two of which were my eldest sister's children, they live at Otage. Also had a meeting about eight miles up the creek at Minbo. Copperwhal, remarked for a time of favour. A deacon of the Baptist Society at the conclusion said he could say Amen to the testimony which was preached, that not a word had been spoken but what he united with; and although he was old, he never had been at a friends meeting before. I then retired to my beloved friend near Otage, named John Brightman, John Matthewson & Isaac Carn, who had Families, with others that I think deserve the notice of friends. These have suffered much by the misconduct of some (as before hinted) who proved dishonest and as stumbling blocks to tender enquirers.

23rd. We had a farewell meeting in Sleeper's barn, satisfactory.

This being a time near our parting, we visited other families; some with tears expressed their sorrow at our leaving them. Here are some tender spirited little Ones, who felt near and dear, whose condition for reasons aforesaid hath been trying.

We had a solid good meeting at this place, which to some, was a tendering season. The 23rd in the morning we left Cooper's town and travelled near 50 miles to Duane's Bush. This was as trying as my nature could well bear. Towards the latter part we came to a family of poor Irish people. Here we got down to rest ourselves & horses a little, it being very warm weather, and I much fatigued. Here tho' not at all agreeable, I thought we must stay that night. Yet were, after resting awhile, favoured to reach Walter Briggs', our desired place. I have been fearful on the account of some, who seem likely to acquire a large share of outward wealth; whether it will not choke the good seed in their minds, except great care is taken to keep humble.

28th. This day we rode about 25 miles to Thomas Almejas, and there had a smallish meeting in his tean, yet very quiet. The People were strangers to our meetings and manner of worship, as there never had been a meeting of the kind here before; and I believe this did not cause any dishonour to the cause of Truth. I am now in a poor state of health; but with kind friends, resting a little, and feel my mind very calm; resigned to the divine will.

1st. Travelling near 50 miles towards Whitestown, pretty comfortably, we reached that place on the 2nd. before noon. There I met with my neighbor J. Cooper & other friends, appointed to visit the Indians, and finding freedom to join them, we went in company that afternoon to an Indian settlement called Brotherton; I understand the number of these Indians is about 200. They have cows, horses, oxen, &c. hold a tract of good land, about ten thousand acres, and have an yearly income paid by New-York Government of 2000 dollars for land, &c. thereto. We were comfortably entertained by an Indian named George Enslay; this is a kind family, speaking our language, their daughter can read and write pretty well.

This day we rode about 25 Miles to Tom's; and the next, had a smallish meeting in his barn, yet very quiet: The People were strangers to our Meetings and manner of Worship as there never had been a meeting of the kind here before; and I believe this did not cause any dishonour to the cause of Truth: I am now in a poor state of health; but with kind friends, resting a little; and feel my mind very calm: resigned to the divine Will.

7th. mo 1st. Place Information

Travelling near 50 miles towards Whitstown, pretty comfortably, we reached that place on the 2nd before noon. There I met with my neighbor J. Cooper, & other friends appointed to visit the Indians: And finding freedom to join them, we went in Company that afternoon to an Indian Settlement called Brotherton: I understand the number of these Indians is about 200, They have Cows, Horses, Oxen &c: and hold as yet a Tract of good Land, about ten thousand acres, and have an yearly income paid by New-York Government of 2000 dollars for Lands sold thereto. ---

We were comfortably entertained by any Indian named George Crosley; this is a kind family, speaking our language, and we find their daughter can ready and write pretty well. ...of the wrongs and unfair dealings of my brethren the white settlers of different races, with traders etc., which have, I fear, taken place in too many instances, to the great injury of the poor Indians. I have therefore thought it right to leave some remarks to posterity, here, and in other parts of my simple notes, of my sentiments which have occurred on this subject. It appears that in years back, some of the Indian lands in this government where I now am, were by them rented to some white people who settled thereon. After thus obtaining possession, it seems those white settlers refused to go off their rented lands, also those who were in station of government 115,330 or pretending they could not easily remove them, even if the Indians were the sufferers, and therefore advised that the lands be sold to the government, and to promote a sale, perhaps on the much less than their value, offer was made to the Indians, that an interest or yearly income should be paid them in lieu of their lands. Now to turn the scale, to look at the treatment they have met with heretofore in some places, how do we suppose the white people would remove Indians, if they were to come and settle on the real property of the whites? Would it not be likely that the method of expelling them by sword and gun would be adopted, without endeavoring to convince or show them, that the mild spirit of Christianity leads men to do justly and strictly observe equity one towards another in every nation where it prevails. To me it remains a serious cause of real concern...

it seems those professed Christian white settlers refused to go off their rented lands:
also those who were in stations of government supposing, or
pretending they could not easily remove them, even if the In-
dians were the sufferers; and therefore advised that the lands
be sold to the government; and to promote a Sale, perhaps an
offer was made to the Indians, that an interest much less than their Value or yearly
Income should be paid them in lieu of their Lands: Now turn the scale, & look at the treatment they have met with heretofore in
some places: How do we suppose the White people would remove
Indians if they were to come intruding and settle on the real property of the Whites? Would it not be likely that the Method of expelling them
by sword and gun would be adopted, without endeavoring to convince
or shew them, that the mild spirit of Christianity leads men to do
justly & strictly, to observe Equity one towards another in every nation
where it prevails. To me it remains a serious cause of real Concern

that in a Country of Professing Christians, whose predecesors were permitted to come and settle on a part of the soil allotted by Divine Providence to native owners of his Creation: who have been renowned both before & since the corruption they imbibe through the fraud & bad example of white men, to be in general kind and hospitable, as well as remarkably punctual to their engagements. Iardians, I attended also. This was in consequence of my desire to instruct them in some rudiments of Christian knowledge, for their benefit & advancement in civilized life, and to afford them some assistance by giving them implements such as axes, hoes, &c. This conference was not so satisfactory as we could desire; these Indians, though showing rather a coveting disposition, or looking for larger gifts from friends than was proper to expect, or for them to be supplied with such hastily, perhaps their expectations had been by some means imprudently raised before our coming to see them. Before we parted from this council, we told the Indians we were informed that at two hours from that time, I proposed to have a meeting at the same place where we now met them. In consequence of which notice, a large number of them, men and women came together. It proved to be an exercising season, life was much wanting; many of them were ignorant in our language, so that an interpreter was made use of, and I felt myself poor at parting, and I understand that the portion of land which these Stockbridge Indians possess, is said to be 28,000 acres, and their number is about three hundred; also that their yearly income from the Government is 600 dollars, which might yield them more benefit of a considerable part of it were not, or was not spent in strong drink, which I suppose has manifestly been too often the case. Seem at times unsteady & fickle; by some means they were not pleased, & the interpreter disordered with strong drink; these circumstances were very trying. But we informed them we were willing to have another meeting, which was proposed for religious worship in the afternoon.

This happened to be more trying still, for the interpreter was so drunk & poor a creature, made but little freedom to speak by him, if suit-able matter had spake; so that my sorrow was increased on seeing so much drunkenness among Indians. From hence we returned to Stockbridge & tarried there again that night; Captain Hendricks seemed to be a chief of some consequence & reputation, & his wife a well behaved woman as far as I saw. ———- The Oneidas being the largest of those Nations, are computed six hundred in number; the Land they hold, called 150 thousand Acres, & their income from government yearly five thousand dollars.

And yet as a portion of Death and darkness was perceived rather than a pleasant feeling among them on these days; although perhaps in their way of civility, their custom of saying, is to give Young, a present to what they hear delivered to them, yet to me it was unpleasant at this time; and I have my doubts concerning some things.

This afternoon we went on about 12 miles towards the Onondagas, and having to lodge at an Indian Tavern, it seemed to be a poor time; yet I felt my mind quiet in a good degree, which I esteem a high favour in these times of Trial.

The Tuscarora hinted of before live on the Oneida Land, and have about two hundred acres allotted them, and it is said a proportion of 6,500 perhaps, annually from the government. I understand that murdering one another when involved in drunkenness, frequently happen among Indians in these parts. 8th. - After riding about 18 miles further, a council (as they call it) was held among those called Onondaga Indians. These seemed not well pleased, as we found they upon grounds had expectations of larger gifts or help from friends than they were now likely to obtain. This was trying again, and my feelings were unpleasant & mournful; O the necessity of prudence and wise acting, if we propose to be useful to these uncultivated fellow men.

9th. - We now set forward towards the Cayuga Lake on a visit to those called Cayuga Indians living there, who seemed poor and miserable, like the others, disappointed in their expectations; we found their chiefs were not at home, and the end of our coming could not be answered to day; we proposed tomorrow to have a meeting with some white People dwelling near. So it being first day, we met & sat comfortably with a little gathering; it being a favoured season, here were some of the scattered little ones, with whom my heart was tenderly affected.

In the afternoon we went to meet with the Indians, having spoken to them on the subject the day before; and although none came at the time proposed, we sat down, and I may say I was comforted in our little company very much, and concluded we had done well, though these poor creatures were ignorant of what we mean by worship.

10th. - On the 11. a few Indians met in council, who appeared miserable, and some of them, though then disorderly with strong drink, we had but little satisfaction, as they were looking for gifts. We visited several families at, and near Mud Creek. Then to Nathan, Aldez. This seems to be a new flat Country, the water unhealthy & the Place sickly. Some asked me if I was not afraid of being sick; I told them I thought I was not, for I enjoyed a quiet mind, which I esteem a great blessing, more so especially when I am in the Lord's service. Next day at Jon. Smith's, we had a large and favoured meeting, in which much tenderness appeared among the old and young a comforted reason to joy. This was about four miles from Canadoewy.

16th At Will. Ingle's in the forenoon we had a pretty large meeting, which was comfortable, and in the afternoon in the at Canadoewy we had another, in the Court house, not so large nor so much favored, yet it was agreeable to observe the people sat commendably quiet and attentive.

17th Leaving this place, we travelled for five days towards Philadelphia, through an unpleasant country, met with poor fare for men or horses, and mean lodging. Sometimes on the floor with swarms of fleas, etc. A scarcity of bread was also apparent.

17th. Expenses in travelling mount high; the road uneven and
muddy in Places. We are all fatigued with health, being five in
number & have travelled in the five days near two hundred miles.
Many of the people through this Back Country seemed to be
of the ungodly sort; and left room to receive the Principles
of Truth; then I have seen in my eastern Travels of near 7,000

were measurably satisfactory; much openness appeared amongst

29th. We travelled hard to reach the meeting at Fishings-creek, near 20 miles; it was large and solid, being the first held in their new house. In my weariness from travel I have in many places found that truth was at a low ebb, though people have sat commanded quietly, yet some raw and uneducated have attended.

30th. Traveled hard again to reach Berwick, a little village on the N. East branch of Susquehanna, where in the afternoon, had a meeting; it was pretty large, and held in the Court house Chamber (Northumberland County); the people appeared well satisfied. A few friends dwell here, but no meeting settled.

31st. We went down the river in a boat which friends provided to go to meeting at Catawissay, to which they belong, the distance called 18 miles. This boat had in it 30 people, it would carry more. They frequently attend their meeting in this way, and have to push back up-stream when they return. travelled through those called Blue Mountains, (a rough road, &
I was poorly & much fatigued, the distance near fifty Miles)
to Maiden-Creek. On first day I was at that meeting, it was not very large, but an humbling season to many hearts of the youth and others; I believe it is not one that will be forgotten soon by all the youth especially. This is mentioned to the Lord's praise; I know not anything is due to mortal man. It is often my lot to enter the meeting-house as an empty vessel; my joints nearly trembling, for fear anything through me should give occasion for the holy cause to be lightly spoken of. Let not the Lord's faithful servants or Handmaidens fail of being watchful and dependent on him in the most stripping reasons; so shall we know an establishment on the sure rock further and further.

From Maiden-Creek I went to a meeting in the town of Reading, in Berkshire, which was large, and I may say, solid. Here as has been common where I have travelled, were all sorts that chose to come; some from curiosity to see, and to hear a man who wears his bed. This circumstance has given me an opportunity to see the people whom I should not otherwise have seen. This meeting I believe ended well. Let the praise be given to him who is our Holy Helper.

The next day, I was at Robinson meeting on the west side of Schuykill river. Tho' it was not large, it was a season much beloved, many hearts being tendered.

I was next at Exeter; not a large meeting, and long in the gathering; when assembled, it was but a poor low time.
to Maiden-CreekPlace Information: On first day I was at that MeetingOrganization Information; it was not very large, but an humbling season to many hearts of the Youth and others; I believe it is not one that will be soon, by the youth especially: This is mention'd to the Lord's praise; I know that not any thing is due to mortal man: It is often my lot to enter the meeting-houses as an empty vessel; my joints nearly trembling, for fear any thing through me should give occasion for the holy cause to be lightly spoken of: Let not the Lord's faithful servants or Handmaids fail of being watchful, & dependent on him in the most stripping seasons; so shall we know an establishment on the sure rock, further and further.

9th. Place Information From Maiden-creek Place Information I went to a meeting in the town of ReadingOrganization Information, in Berks CountyPlace Information; which was large, and I may say, solid: Here, (as has been common where I have travelled) were all sorts that chose to come; some from curiosity to see, & to hear a man who wears his beard. This circumstance has given me as large opportunity to see they people whom I should not otherwise have seen. This Meeting, I believe ended well; Let the praise be given to him who is our Holy Helper.

The next day, I was at RobinsonPlace Information meeting on the west side of Schuylkill river; Tho' it was not large, it was a solid & favoured season; many hearts being tendered.

I thought I was sensible of a dry, lukewarm state, which is but too common amongst the highly favored People called Quakers. How the customs, the love, and the spirit of the world have caused dimness in some places. The following day I had a small meeting at Pottertown; I thought the number of women was largest here, and the most tender. I had close labour amongst them, which was well received, and thought the meeting ended to the honour of the good cause. Gave gay people attended & sat solidly.

13th. From here I travelled to Buckland in Bucks County, in an exercise of a low state of mind, and was at two pretty large meetings there on first day, though I thought the truth was not permitted to come much into dominion, either in the fore- or afternoon. From this place.

15th. I went to Hemstead, and had a meeting pretty large; but so poor and low a time, I was almost ready to think all was over with me. I had left opinion of preaching; desiring the people might have to think of their condition, and to seek for renewing of strength; as not many under our name in self secure state, seeming to need nothing. The next meeting I went to was at Buckingham, which was very large, but laborious indeed. Here I was sunk very low in my mind, began to think I was worse off than in remote parts, or amongst the Indians, and near ready to say, "Are we the worst of all People, who above all have been so peculiarly favored of the Lord? Oh, East, lukewarmness and coldness!"

The arrows came so sharp against against wrong things, that at length there was a yielding and confessing, until hidden matters were laid open. Glory to his great Name now and forever. I went the next day from Hemsstead to a monthly meeting, (not belonging to Bucks-Quarter) Here, observing the state of their Business and the management of it, there was really cause of lamentation: When life and power is wanting, but little can be done to the Lord's honour, in the affairs which relate to discipline in his church.

19. - I also attended a general meeting held there. At this time I thought it was given me to see clearly there was a danger in being too free in the use of a liberal flow of words in ministry; I fear there is a possibility of some, except they are better guarded, and speak not with the Spirit's pure influence, will be in danger of letting loose words in public, resembling common talk, or of gratifying itching ears, instead of raising the witness of life in the souls of the listeners.

21st. Coming to Wrightstown, I attended their Meeting on that day. Preaching seems to be looked for by many People, and that of a smooth kind pleases best; this makes hard labour for those who singly seek to serve the great Master uprightly. I think I have not been more sensible of this, than since I came nearer home. There are large Meetings; but I have been at some much smaller, comparable to the two or three, with minds truly turned to seek the fountain of life in themselves, which have been much more favored with the divine presence.

22nd. The next day, had a Meeting at Mahanoy; it was very comfortable season it was to myself, and to friends in general. I believe. My mind has not been favored with such a sweet enjoyment of Divine Goodness since I came into this Country. Blessed be the Great Shepherd of Israel. If the tender-hearted little ones hold on their way, I believe there will be a growth in the truth to come in this Meeting.

This was the select meeting held at the Falls for Brachidian ton, at which I attended. It appeared to be a lively time, and I thought that many things were well handled. It was agreed, in the general sense of friends, to form the answer, which are to be sent forward to our Queries, Pasting weightiness on each query, after reading it, and then endeavouring to represent the real state, not seeking to hide or screen ourselves by evasive answers.

The impropriety was open of friends making too great provision at Lu. meetings, etc, by preparing many sorts of dishes, often changing Plate, causing needle work. The necessity was also hinted of the foremost rank beginning to prepare, a lead the way towards true moderation and temperance, their example being likely to have a powerful influence.

On the day following was held their Lu. meeting for Business, wherein at this time the outward form of Truth's discipline was low, as I believed, and I was ready to say, Alas, Alas, and so to almost give out trying to labor for the benefit of the Cause. I had been engaged in. But going to see some poor little one, in the afternoon, I was a little comforted, and strength renewed, for I believe we were owned by the Master in some of our conferences on weighty subjects.

I likewise attended their Youth's meeting at the Falls; poor and low to some of us; yet no lack of preaching, I did believe a weighty silence might have done more good at that time, perhaps.

That evening I crossed Delaware, and the next day came home, finding my family in health, which with many other favours I have witnessed in my absence from them, I feel there is great cause of humble thankfulness to the God and Father of all our mercies. Though, with respect to my outward home, I feel myself but as a Sojourner or Pilgrim, because of a Prospect having been weightily opened to me, relating to a religious visit toward the Southern Part of this Continent; but, if my health admits, and the way should be prepared with Clearness,

31st. I have visited several friends; have had serious thoughts concerning reformation, and have believed those who go foremost in the work to real Profit, must pass this great exercise for self must become of no reputation, before we can bear the cross & define the shame for Jesus Christ's sake. In much sympathy with my fellow-member, my Spirit hath for some years been deeply exercised on account of the state of things in our society: And I have sometimes feared that wrong things of late have grown fast among friends in a time of Peace, plenty and Ease. Surely if we let hurtful weeds grow, they check the growth of good weed; So will wrong things, if we entertain them, check our Progress in the narrow way that leads to life. In that way, though straight & narrow, there is liberty enough: And when we through a patient coming to wear the Cross of Christ, come to experience the liberty of the blessed Truth, we may be then freed from that weight of all Burden, the world, and the idolatrous love thereof. Oh that, if by here leaving a few sentences of my earnest desire, as a call to the beloved Youth of our day, I could prevail with many of them to come taste and see how good the Lord is, to those who fully surrender their hearts to his service: Then would your experience of his matchless Love be sweet, and his language would often breathe forth. The way are ways of pleasantness, O Lord, and all thy Paths are Peace; at the right hand are rivers of Pleasure, forevermore: For although the Lord may see need to hand unto you some of the wormwood and the gall to taste of, yet he will not cast the Little Ones who are his sincere followers, that you will coaxely partake the Bitters: My soul in deep reverence can say his Sweet Peace for obedience for his requiring has been sweeter than the Honey

Honeycomb, etc. Oh that it was the happy experience of all people to submit to the refining operations of the grace which is inwardly revealed: Then might they come to know the in-dwelling of the graceable Spirit of Holy Jesus. This would put an end to quarrelling, & jarring, to hard thoughts and hard speeches, and introduce in us the coming of his kingdom. Men would thus be taught and enabled to love enemies, & to bear reviling for Christ's sake, without reviling again. They would find no better way to gain hard victory than by overcoming evil with good. However this doctrine may seem to be to the natural will of men, many living witnesses certainly know that a state of this kind is attainable. Therefore let no man's or woman's heart fail them. All have the offer of divine grace and assistance to overcome the evil part, & none are excluded who are willing to close in, & obey the teaching thereof, working while their day of imitation lasteth, and often bearing in mind that 'The night cometh, wherein no man can work."

O that this might in some degree serve as a loud loving call to my fellow-pilgrims, and sojourners throughout the land.

In this month I attended the monthly meeting at Mount Holly and Everham. In this month it seemed to be low times, especially at the first of them. At the select meeting for Everham on the 10th, I had close labour in true love, respecting the things which have appeared.

appeared to me superfluous, and inconsistent with respect to our ancient testimony, relative to eating, drinking, wearing, using, &c., similar to what I have been free to hint of elsewhere in the minutes I have made; and my present concern was well relieved as I believe.

The same day I visited a couple newly married, who had both of them former companions. The woman was poor & the man deformed; I was concerned to speak closely on the snare and disadvantage which have frequently attended second marriage, and the necessity there is for such Persons living steadily in the Lord's fear, and guarding against temper, & party views about worldly interest, where they had children by former marriage. The woman was tender-hearted and had many tears; and I warned the man to beware of cramming her.

I returned my certificate at our monthly meeting, and gave my friends some account of my late journey & exercises. I also let them know that as I returned homeward, a prospect had opened itself which I had a glimpse of before, & had told my wife; yet it seemed taken away from me after that; which was of paying a religious visit to the meetings of friends. I such service otherwise as way might give for in the Southern parts, the Carolinas, &c. About this time there was many sickly, a number of whom I visited. One woman being in great distress of mind, expressed her self after this manner (expecting her stay on earth would not long "I did not think I had been so great a sinner until now." My certificate was signed by a large number of my friends, and at our year meeting it was indorsed with approbation of friends there. After that I prepared for my journey the next time I was under great mortification of spirit; had the company and sympathy of several friends who came to see us; and in the midst of my exercises I feel the Lord near to my strength and support. Blessed be his name who is the God of Abraham, of Isaac and Jacob.

The Yearty Meeting of minisyn and Elden began next day: It was in the course of its sitting & the Sittings for business in the next week, a time of suffering to me: & I believe I had brethren and sisters in like situation, not perceiving the Truth to rise into right dominion. I had a little strength to discharge my trust in the way I am led, in speaking among the Select members on the liberal use of wine and smoking Tobacco; this was in the first sitting, and I believe was not rejected by a remnant, after which I bore my burden mostly in silence through the sittings. O, Lord, be pleased to keep my head above the waters & leave me not in the most trying seasons, & then may your permit to come, and then my soul shall bless and praise thy admirable Name.

Receiving my mind drawn to endeavour if I can to attend the yearly Meeting in North-Carolina, I left Baltimore (having company provided) and went thro a storm to a poor little meeting at Elk-ridge. That afternoon & next day reached to Alexandria in Virginia, and had a large meeting in the evening, where divine favour was witnessed, & I believe the Truth was over all.

Pilaging forward to New Oak, had a meeting there, or was at meeting there on first day, at which were a large number of black People who sat solidly. On discouraging after meeting with several of them, I found the manner they are treated as to food, clothing & otherwise.

On the 28th we also had a pretty comfortable meeting at a Place called Seaford; And the day following one at the Western Branch: this was a time of very close searching; profit to some profit; I understood that two young men here who never had been at one of our meetings before, were considerably reached & affected.

We now came to Little River in North Carolina and attended a meeting there; & the next day began their Yearly Meeting. Some of business at the place. The first sitting appeared to me a low season but in the next I thought business was conducted rather better, & in the Sittings of this yearly meeting, there was much condescension among friends. The testimony against the improper use of distilled spirits & the making such liquors hath not often been in this meeting, & also friends had the subject before them. I was with a Committee on the revival of their discipline.

of the black or Slaves were at the meeting who sat
in a solid manner, appearing more humble than many of
the whites; yet I believe it was a season of divine favour.
I understand the slaves in these parts, though they
face hard with those who hold them, are commonly of
longer lives than the white People, who live sumptuously
on the fruits of their Soil. The Slaves allowance for a
week is in many instances confined to a peck of Indian Corn

We were now at a pretty large meeting at Somerton, nearly one third were black people, & they, as well as other saints, stood up; there was a satisfactory season, and many appeared tender; close doctrine was delivered on behalf of Truth's cause, seemed to be well received. The 12th attended a select meeting of the Quarterly held at Western Branch, in much poverty. I believe there was no want of more living zeal amongst its members.

Then had a large meeting composed of people of different colour, which was held in Suffolk Court House, many more came than the house did hold. It was a cold & favoured season; satisfactory in general I believe. But one family of friends dwelt here at this time. From hence we returned to the widow Ann Scott's near the Western Branch, who being able & open-handed, is about building a new meeting-house at her own expense. My affectionate desire for her is, that she may be preserved, so as retain a blameless character in the important station she stands.

1796. 11th. mo.

That evening had a meeting for the black people in a schoolhouse near the Widow Scott. It was the first of this kind that was ever held in these parts being large. One of the justices attended, & some other master of Negroes. It was a solidly favorable time and they spoke well of the meeting; some of them said they should be very free their Negroes should be at such meetings, and we were glad they had been there themselves, uniting with what was spoken, and wishing it might be observed. We next travelled from hence to Bennet's Creek, near the sea shore, and the next day had a large and favorable meeting there. Also the same afternoon another at the Widow Bushman, likewise large for the place, as well as solid and satisfactory. Some of the people seemed rejoiced not having much opportunity to be at friends meeting. We parted with them very lovingly.

17th. Our next Meeting was the South Branch, a very exciting season. I thought the design of some was that smooth things, or peace might be spoken to them, believing they were too much in a whole State, so that there was but little room for labour. But how can there be peace, where Pride and Oppression abounds? The slaves having to bear the burden; many of them sorely oppressed with want of proper clothing, food &c. under Taskmasters, whose religion seems to be in talking; The Land Barren or nearly worn out, and their manner of cultivation and management—best poor. Prospect of Things here looks gloomy every way. It is a trying circumstance to me, to see the naked bodies of slaves and cold weather near, whilst the sons of their oppressor, in an idle life, appear so different; and their haughty daughters with stretched forth necks and wanton looks, their long-tailed gowns, trailing, as tho' some of them might spare something to put on the naked bodies of those who wait upon them.

18th. — We next had a small meeting near the great bridge at Robert Pool's to satisfaction. After which I had solid conversation with some gay women respecting their manner of dress; at a house where we were kindly entertained; nay, Freedom with them seemed to be well taken. They appeared somewhat religious, but I thought they wanted depth. They were not acquainted with friends, nor our principles. One thing I mentioned for them to consider was, whether some of the stuff in their gown tails, & the price of superfluous ribbons, might not well be spared to put something on the naked bodies of little blacks, &c. It was a solid reason, and not resented, though I suppose they never heard such sentiments before. We parted very friendly, and rode in the evening about 15 miles, and had a solid time with E. D. who said he was born at Egg-harbor in Jersey.

22. We had a large and solid meeting at the Widow Britts, in Camden County, N. Carolina, a place where never had been held one of our meetings, and but few of the people who ever had attended at one.

The next day also we had a large and favoured meeting in the same county, at the Widow Richardson's; these seemed a kind people, much acquainted with our way, and many hearts were tendered; I believe it was a time not to be forgotten by some.

23. At Pinney's Woods, we attended Friends' preparative meeting. Here I had close labour, things appearing in a low state; I endeavored to stir them up to a more lively zeal for the cause and testimony of truth; which they appeared to receive well.

On the next day was the Select Meeting at the same place, for their Quarterly Meeting. My concern was to stir up to the pure part on the right education of children and families, that becoming plainness might be kept to, and they be good examples themselves, in their houses, furniture &c. The day following was held their 2d meeting for business. Here I believe the state of my friends in a religious sense was poor, but little life or power. I laboured both amongst men and women in my small ability, for their help, and I hope it ended to some profit at last; th'd a trying time.

28th. Had a meeting at the Old neck, somewhat small yet favored and still. 30th. Leaving Piney Woods, we travelled to Rich Square, and the next day had a large meeting which to me was very encouraging.

On the day following, at the request of some of the Baptists, we had a meeting in their Meeting house, which was satisfactory. I believed God well, being larger than expected, in wet weather, and the notice given being but small. Next, we were at a monthly meeting at Jack's Swamp; it was but small: some solid friends dwell here, who seem rather in a weak state, and are in need of help. I bestowed on them according to my measure, so they expressed unity with my service.

We tarry at their first day meeting, which was large and most beautifully favoured; then went forward to Halifax; The day following, riding near 50 miles towards a town called Rawleigh, the day after, we came to it, where the General Assembly for North Carolina were sitting. We found some friends at the place, desiring to endeavor for an alteration of the cruel laws relating to the Negroes. Having felt my mind much concerned on the subject, I was willing to join my endeavors to theirs.

We attended the House of Common Council, had many private conferences with members who received us friendly, yet seemed much opposed to the freedom of black people.

I was endowed by my Great Master with an innocent boldness, in which I could exercise freedom in solid conversation with the most leading men for they mostly quartered where we did, which gave me a full opportunity to relieve my oppressed mind. 8th. The prospect seems gloomy whether anything can be done at this time for the Relief of our distressful fellowmen yet I would not have my friends here be discouraged. The cause is surely good. And I have no doubt but way will be made for the poor people's liberation, but what way or how soon must be left to the Lord. My mind was turned to think of trying for a religious public meeting in the place which some of those we conversed with, spoke in favour of. If the way should be opened and the business they were met on, would admit of it. It was the house we have also thought should be the most suitable place. But after waiting a while to see how matters would turn with respect to a public opportunity, it was more likely to be obtained in the present circumstances I was therefore more free to make use of private opportunities with the Members of the Legislature and others, which was to my own satisfaction if to theirs as far as I saw. There being here now a large collection of those of the first rank, Gentlemen, so called; most of them being men in some office, civil or military. I thought the respect they showed me was marvellous. For my appearance, singular as it was, some of them confessed was instructive; that their own conduct and way of living was luxurious, which might be spared, saying that I looked as well as they did, although they had great variety of roasted flesh &c. &c. &c. provision &c. whilst mine was about half a pint of milk and 2s.

All this seemed to be in my favor, to furnish me with my mind was so engaged, with opportunities to touch on their cruel laws, the hardships & inhuman cruelties to which the poor blacks were subjected in that government. I queried of them many things, about what it was in such a severe way here, more than in any other Place that I had heard of. for I had been thro' each of the governments Eastward, as well as maryland and virginia, lately, and had not heard of any cruelty of the kind sanctioned by any other legislative body on the continent. Some of them spoke of other states not having so many slaves in them, and less occasion for fear of their rising; my answer to that was, those who so cruelly oppress the slaves, have more occasion to fear their rising, etc. my reasoning with them on the subject was in a way of plain dealing, and so well received that many of them kindly invited me to come and see them if I should come near their dwellings, for that it would give them pleasure (as they said) to entertain me. It was unexpected also to my companion, myself, when he came to settle for our tavern expenses, whilst there, the men would take no pay for my Boarding, he was so well pleased with the visit.
