In the fall of the year 1795 at the yearly meeting held in Philadelphia for Pennsylvania & New Jersey, the situation of the original Inhabitant of North America was laid before the meeting, friends thinking it best to make a move in the concern for the civilization of some of this People. A committee was appointed to take the matter particularly under their care. Shortly after their appointment the minutes of the yearly meeting (on this concern) with several letters from the schemes & chiefs of several Nation, were sent to the Quarterly and monthly meetings throughout the yearly meeting with advice to raise a fund for the use of this concern, from the several Quarterly & monthly meetings about six thousand pounds was raised. first, You now know that we are sent to you by your old friends, the people called Quakers, of Pennsylvania & parts adjacent, not merely to make you presents, which will soon be spent leaving you poor and needy, but to shew you how the white people manage to raise a great deal of food & clothing off of a little land, that you may become able to support yourselves & your children comfortably, without being beholden to
Agreement was come to, proposed on the 25th and agreed on the 30th of the 6 Mo 1796. Brothers of the Oneida Nation, you now know that they are called Quakers, of Pennsylvania and parts adjacent, not merely to make you presents, which will soon be spent, leaving you poor and needy, but to show you how the white people manage to raise a great deal of food and clothing off of a little land; that you may become able to support yourselves and your children comfortably, without being beholden to
to any body, and have something to spare for the old & infirm as well as to lay by against times of scarcity.

Brother,

Remember that we have left all that was near & dear to us at home, not to get your lands from you, or anything that is yours, but to visit you in love and to stay with you if happily we may put you in a way to enjoy the manifold blessings of all countful creation, now we have seen & reflected upon your situation & consulted one another for your the future prosperity of your whole Nation & the three Tribes you have kindly
to any body, and have something to spare for the old and infirm as well as to lay by against times of scarcity — Brothers Remember that we have left all that was near and dear to us at home, not to get your Lands from you, or any thing that you have is yours but to visit you in love and to stay with you, if happily we may put you in a way, to enjoy manifold blessings of all bountiful Creator; now we have seen and reflected upon your situation and consulted one another for your prosperity of your whole Nation and three Tribes you have kindly
kindly permitted to settle on your lands, and we have put our
conclusions in writing, that it may be known what we are willing to
undertake for you, & what we desire you to do toward it yourselves
for we mean to set before you a clear example if you will agree
to follow it. Now, Brothers, we trust that we know your
confidence unmixed with any jealousies or fears & we request you
to listen patiently & attentively, to what we are going to propose to
you for your own good and if any part of it displeases you tell
us so & we will consider it. Brothers, Those of our friends
intend to stay with you for these purposes, namely Jacob Boyle,
Henry Simmons and Enoch Walker, but they are not bound
to remain by any thing but good will, neither are they
kindly permitted to settle on your lands and we have put our conclusions in writing, that it may be known what we are willing to undertake for you, and what we desire you to do towards it yourselves for we mean to set before you a clear Example if you will agree to follow it, Now Brothers We trust that we possess your confidence unmixed with any Jealousies or fears and we request you to listen Patiently and attentively, what we are going to propose to you for your own good and if any part of it displeases you tell us so and we will consider it; Brothers, Three of our friends intend to stay with you for these purposes namely Jacob Taylor, Henry Simmons and Enoch Walker; but they are not bound to remain by anything but good will; neither are they obliged
obliged to work more than they think necessary nor to be altogether among you as they are to go sometimes to Tuscarora stock bridge & Brotherstown, we earnestly desire that none of you may discourage them by swearing, idleness, drunkenness or misbehavior; for these things are very disagreeable to us, as you know they are to the good spirit. Brother, you know we must have some land to work upon and we should like to begin upon that part of the common that lies west of the path from Skanandoah to Stockbridge south of the road to Onondagas, east of the boundary of the old fort & north of Skanandoah creek excepting any part thereof now occupied by your families. Brother, if we think there is encouragement to undertake this during another year, we shall ask you for it seasonably, and agree there where it shall be.

Brother, you know it is hardly practicable for all to labor together; we will begin with a few, who must stick to the work, the rest will see how the get forward, and be ready to take their turn when it comes round; we want to engage six or eight sober young men as Apprentices till next spring. Brother, we suppose you will be willing that we should feed our horses, cattle, &c., upon the common, and that you will allow us some grass lots to provide hay for them in the winter, to cut fitchwood railing.

Now, Brothers, our stay amongst you will depend upon several circumstances, and particularly the encouragement we may have to hope that your Nation will in time become sober, industrious and frugal, laying up something for yourselves against sickness and old age. Wherever we leave you the improvements we make on your lands will belong to you; but the cattle and other thing we bring with us we shall consider as our own.

The Indians replied on the 30th of the 6th in substance as follows, Brothers, we find no difficulty in accepting your proposals as to any thing but the place you chose (see the fifth paragraph) many of our people are against pasting with any of the commons, because we have hardly pasture enough for our cattle now, if we let it t they will be famished & break down the fences & get at the corn, besides which we are afraid our young men will disturb you sometime there when they get in liquor, Brothers we think it right to propose another place to you which we think may suit you better. we will go shew it to you upon this the spot was removed & mutually agreed on.

To our Indians Brethren of the six Nations
Brothers; We rejoice that you are now at peace and we pray to the good spirit that he may continue to preserve
you from the miseries of war, we have always had your welfare at heart, ever since our grandfather, Onas* came into this country; and the present time appears to us to be a favourable one, again, to manifest our unalterable friendship for you. We cannot forget the harmony that subsisted between our forefathers & the Indians during the first settlement of this country.

Brothers: We have heard some of your chief men say that they believed the Good spirit designs that you should not live much longer by hunting alone. The game is grown scarce yet although your land is much less than they once were, they are with a small degree of Industry
