My dear Parents,

About two weeks ago I wrote to you and sent it ^{by} an Indian that was going to Pittsburgh for the things the Committee has sent for us, in which I promised to give a more full account of our journey by W^m Embree when he returned, and I feel myself so indebted to Father, as renders it requisite for me to comply with his request, but on looking over the notes which I have kept, seeing how imperfectly they are, it has almost discouraged my attempting, for I cannot conceive they will be any way entertaining, excepting a little bare information, I often feel myself very defective in literary knowledge, and my ideas in matters of consequence, much confined, let those whose genius are more bright, have charity, and accept, dear Father, my communication flowing from the sincerity of the heart. I have felt very much weary

About 30 of the Indians has since join

them, a grand piece of work for
Indians, it being done completely

Cornplanter did not attend
the council but has been here since
I did not deliver the message for
want of an interpreter I Taylor
said he thought he could ^{not} make
him understand which was true.
There was a paragraph in the address
from the committee sent by us

referring that when any of them
has done any thing another does not
like, they should not differ but
forgive him that does wrong
for the good spirit forgives
as when we ^{do wrong if we are} ~~are~~ ^{but} ~~forgive~~ for it
